## **Shadows** - Alexandra Grant 2015-01

What exactly is a shadow? Is it light tracing an object or the shape a body throws when it comes between a light source and a surface? Is it a metaphor for the intimate, darker side of a persons nature, the unconscious side of ones self, where daemons and secrets are kept hidden or repressed? Is it an allegorical place or state of being, somewhere between darkness and light, living and dying? Or is it a state of illusion, like Platos cave? Is it a verb that means to follow or accompany, or even to spy on? Shadows, a new collaborative series by Alexandra Grant and Keanu Reeves, explores the real and symbolic nature of the shadow as image and figure of speech. Grants photographs capture Reeves shadow at times as a silhouette and at others as traces of light as he and the camera move together. In transforming the images into color and reversing light for dark, Grant has made the shadows themselves the source of light. Reeves texts, written in tandem with the creation of the images, give voice to the multiple manifestations of the shadow: as a projected figure, a place of concealed emotion, and an invocation to shadow play.

## **Corona, Climate, Chronic Emergency** - Andreas Malm 2020-09-22

What does the COVID 19 tell us about the climate breakdown, and what should we do about it? The economic and social impact of the coronavirus pandemic has been unprecedented. Governments have spoken of being at war and find themselves forced to seek new powers in order to maintain social order and prevent the spread of the virus. This is often exercised with the notion that we will return to normal as soon as we can. What if that is not possible? Secondly, if the state can mobilize itself in the face of an invisible foe like this pandemic, it should also be able to confront visible dangers such as climate destruction with equal force. In Corona, Climate, Chronic Emergency, leading environmental thinker, Andreas Malm demands that this war-footing state should be applied on a permanent basis to the ongoing climate front line. He offers proposals on how the climate movement should use this present emergency to make that case. There can be no excuse for inaction any longer.

## **The Day** - Giuseppe Parini 2010-04-01

One of the most studied and popular works of Italian literature, Giuseppe Parini's The Day has been unjustly neglected in the English-speaking countries. This edition reissue of Herbert Morris Bower's beautiful verse translation, the only complete English version of the poem, is enriched by facing original text and extra end notes. Parini's satirical description of a lazy young nobleman's fashionable day, from his awakening late in the morning to the fatuous pleasures that noon and evening bring, has been often compared to The Rape of the Lock, and displays the same gentle tone, pointed wit, and enduring charm of Pope's masterpiece.

## **The Salmon Fly : how to Dress it and how to Use it** - George M. Kelson 1895

## **Transforming Our World** - Ivo Šlaus 2020-05

This book addresses the survival of humankind. Our world is the best it has ever been, but it is not sustainable. It is self-destructive; it is marked by war, which can destroy the world in a single day, the destruction of natural and human capital within 10 years, and technologies which could be both beneficial

and destructive. We have no future if we continue living as we do currently, and even if we do nothing. This book highlights the kinds of changes which are required. Wars are not biologically necessary and are useless; the culture that established wars can eliminate them. Poverty, hunger and inequality destroy human capital. These destructions can be overcome by changing economic and political paradigms and our mindset. Empathy, freedom, curiosity and wisdom are required.

Companion Animals and Domestic Violence - Nik Taylor 2019-02-03

In this book, Nik Taylor and Heather Fraser consider how we might better understand human-animal companionship in the context of domestic violence. The authors advocate an intersectional feminist understanding, drawing on a variety of data from numerous projects they have conducted with people, about their companion animals and links between domestic violence and animal abuse, arguing for a new understanding that enables animals to be constituted as victims of domestic violence in their own right. The chapters analyse the mutual, loving connections that can be formed across species, and in households where there is domestic violence. *Companion Animals and Domestic Violence* also speaks to the potentially soothing, healing and recovery oriented aspects of human-companion animal relationships before, during and after the violence, and will be of interest to various academic disciplines including social work, anthropology, sociology, philosophy, geography, as well as to professionals working in domestic violence or animal welfare service provision.

**More Than Love** - Natasha Gregson Wagner 2020-05-05

The “graceful, loving,” (The New York Times Book Review), never-before-told story of Hollywood icon Natalie Wood’s glamorous life, sudden death, and lasting legacy, written by her daughter, Natasha Gregson Wagner. Natasha Gregson Wagner’s mother, Natalie Wood, was a child actress who became a legendary movie star, the dark-haired beauty of *Splendor in the Grass* and *West Side Story*. She and Natasha’s stepfather, the actor Robert Wagner, were a Hollywood it-couple twice over, first in the 1950s, and then again when they remarried in the 70s. To Natasha, she was, above all, a doting, loving mom. But Natalie’s sudden death by drowning off Catalina Island at the age of forty-three devastated her family, turned Robert Wagner into a person of interest, and transformed a vibrant wife, mother, and actress into a figure of tragedy. The weekend has long been shrouded in rumors and scandalous tabloid speculation, but until now there has never been an account of how the events and their aftermath were experienced by Natalie’s beloved eldest daughter. Here, for the first time, is a “deeply intimate chronicle of life with her famous mother and how Wood’s death devastated the family” (Los Angeles Times). Cutting through the shadow hanging over her mother’s legacy, *More Than Love* is a “poignant” (The Washington Post) tale of a daughter coming to terms with her grief, as well as a “revealing new look at Natalie Wood” (Good Morning America).

**Angels Fall** - Lanford Wilson 1983

THE STORY: The scene is a small mission church in a remote part of New Mexico, where a middle-aged college professor and his lovely young wife detour unexpectedly after the highway is closed because of a possible accident at a nearby nuclear facility

*Veterinary Virology* - Frank J. Fenner 2014-06-28

*Veterinary Virology* deals with basic biomedical virology and the clinical discipline of infectious diseases. The book discusses the principles of virology as effecting future developments in the search for preventive and management of infectious diseases in animals, whether singly or as a whole herd or flock. Part I explains the principles of animal virology including the structure, composition, classification, nomenclature, cultivation, and assay of viruses. This part also discusses viral genetics, replication, and evolution (including mutation and genetic engineering). The book also reviews the pathogenesis of viruses, host resistance and susceptibility, as well as the mechanisms of persistent infections and tumor induction. Part II deals with viruses found in domestic animals; this part also explains in detail the properties, replication methods, pathogenesis, immunity, diagnosis, and control of some common viruses. The book discusses some other families of viruses of which no members are yet known as to have caused serious or important diseases in animals. Veterinarians, immunologists, virologists, molecular researchers, students, and academicians in the discipline of virology and cellular biology, as well as livestock owners will find this book helpful.

*Medical Microbiology* - Patrick R. Murray 1998

This third edition of *Medical Microbiology* provides a concise, up-to-date, and clinically relevant introduction to microbiology. This innovative text focuses on those microbes that cause disease in humans and follows a taxonomic approach. Special emphasis is placed on important, medically relevant information. Each chapter of *Medical Microbiology* follows a consistent format in discussing all the medical diseases: etiology is covered first, followed by epidemiology, host defenses, identification, diagnosis, prevention, and control. Hundreds of color photographs and drawings, summary boxes, and tables help reinforce key points, ensuring that *Medical Microbiology* is focused, attractive, and easy-to-follow.

*Single State of Mind* - Andi Dorfman 2018-01-09

The breakout star of ABC’s *The Bachelorette* and New York Times bestselling author of *It’s Not Okay* returns with a “relatable AF” (Cosmopolitan) collection of her adventures as a still-single gal surviving and thriving in New York City. Sharing moments like finding her first New York apartment (the front door broke so she had to use the fire escape), her first dates on “celebrity Tinder” (just as bad as regular Tinder) and finally, watching her ex-fiancé propose to another woman on *Bachelor in Paradise*, Andi Dorfman doesn’t shy away from pulling back the curtain on the life of a reality star who’s returned to reality. Once again, Dorfman “doesn’t hold back” (HuffPost) as she recounts her romantic mishaps, city adventures, and, of course, insider *Bachelor* experiences. *Single State of Mind* is Sex and the City for the reality TV generation.

*Stacey's Lie* - Ann M. Martin 1994

Stacey's vacation is full of mishaps when she tells one little lie which leads to another and another and another.

**Into Every Generation a Slayer Is Born** - Evan Ross Katz 2022-03-15

Explore the history and cultural impact of a groundbreaking television show adored by old and new fans alike: *Buffy the Vampire Slayer*. Over the course of its seven-year run, *Buffy the Vampire Slayer* cultivated a loyal fandom and featured a strong, complex female lead, at a time when such a character was a rarity. Evan Ross Katz explores the show’s cultural relevance through a book that is part oral history, part celebration, and part memoir of a personal fandom that has universal resonance still, decades later. Katz—with the help of the show’s cast, creators, and crew—reveals that although *Buffy* contributed to important conversations about gender, sexuality, and feminism, it was not free of internal strife, controversy, and shortcomings. Men—both on screen and off—would taint the show’s reputation as a feminist masterpiece, and changing networks, amongst other factors, would drastically alter the show’s tone. Katz addresses these issues and more, including interviews with stars Sarah Michelle Gellar, Charisma Carpenter, Emma Caulfield, Amber Benson, James Marsters, Anthony Stewart Head, Seth Green, Marc Blucas, Nicholas Brendon, Danny Strong, Tom Lenk, Bianca Lawson, Julie Benz, Clare Kramer, K. Todd Freeman, Sharon Ferguson; and writers Douglas Petrie, Jane Espenson, and Drew Z. Greenberg; as well as conversations with *Buffy* fanatics and friends of the cast including Stacey Abrams, Cynthia Erivo, Lee Pace, Claire Saffitz, Tavi Gevinson, and Selma Blair. *Into Every Generation a Slayer Is Born* engages with the very notion of fandom, and the ways a show like *Buffy* can influence not only how we see the world but how we exist within it.

**Infections of the Nervous System** - David Schlossberg 2012-12-06

Dr. David Schlossberg presents his fifth volume in the series *Clinical Topics in Infectious Disease*, *Infections of the Nervous System*. This edited monograph brings together the leading authorities in infectious disease, neurology, and radiology to review the diagnosis and treatment of all major neurological infections. Topics covered include meningitis; acute CNS inflammation; infections of CNS shunts; brain and spinal epidural abscesses; the cerebellum and CNS infection; post-infection complications and syndromes; acute viral encephalitis; neurodegenerative peripheral nerve diseases; myelitis; CNS tuberculosis; cryptococcal, fungal, and parasitic infections; neurosyphilis, AIDS; Lyme disease; diagnostic imaging of CNS infection and inflammation; and evaluation of spinal fluid.

*Patricia Neal* - Stephen Michael Shearer 2006-05-19

The internationally acclaimed actress Patricia Neal has been a star on stage, film, and television for nearly sixty years. On Broadway she appeared in such lauded productions as Lillian Hellman’s *Another Part of the Forest*, for which she won the very first Tony Award, and *The Miracle Worker*. In Hollywood she starred

opposite the likes of Ronald Reagan, Gary Cooper, John Wayne, Paul Newman, Fred Astaire, and Tyrone Power in some thirty films. Neal anchored such classic pictures as *The Day the Earth Stood Still*, *A Face in the Crowd*, and *Breakfast at Tiffany's*, but she is perhaps best known for her portrayal of Alma Brown in *Hud*, which earned her the Academy Award for Best Actress in 1963. But there has been much, much more to Neal's life. She was born Patsy Louise Neal on January 20, 1926, in Packard, Kentucky, though she spent most of her childhood in Knoxville, Tennessee. Neal quickly gained attention for her acting abilities in high school, community, and college performances. Her early stage successes were overshadowed by the unexpected death of her father in 1944. Soon after she left New York for Hollywood in 1947, Neal became romantically involved with Gary Cooper, her married co-star in *The Fountainhead*, an attachment which brought them both a great deal of notoriety in the press and a great deal of heartache in their personal lives. In 1953, Neal married famed children's author Roald Dahl, a match that would bring her five children and thirty years of dramatic ups and downs. In 1961, their son, Theo, was seriously injured in an automobile accident and required multiple neurosurgeries and years of rehabilitation; the following year their daughter, Olivia, died of measles. At the pinnacle of her screen career, Patricia Neal suffered a series of strokes which left her in a coma for twenty-one days. Variety even ran a headline erroneously stating that she had died. At the time, Neal was pregnant with her and Dahl's fifth child, Lucy, who was born healthy a few months later. After a difficult recovery, Neal returned to film acting, earning a second Academy Award nomination for *The Subject Was Roses*. She appeared in a number of television movie roles in the 1970s and 1980s and won a Golden Globe for Best Actress in a Dramatic TV Movie in 1971 for her role in *The Homecoming*. *Patricia Neal: An Unquiet Life* is the first critical biography detailing the actress's impressive film career and remarkable personal life. Author Stephen Michael Shearer has conducted numerous interviews with Neal, her professional colleagues, and her intimate friends and was given access to the actress's personal papers. The result is an honest and comprehensive portrait of an accomplished woman who has lived her life with determination and bravado.

**The Deeper the Roots** - Michael Tubbs 2021-11-16

"Insightful, emotional, and enraging. By sharing his story in gripping detail, Michael Tubbs embodies an old feminist tradition whereby the personal is political. He empowers us to fight for equal opportunities for our communities, and encourages us to amass the courage to overcome loss and injustice." —Ibram X. Kendi, National Book Award-winning author of *Stamped from the Beginning* and *How to Be an Antiracist* The making of a visionary political leader—and a blueprint for a more equitable country "Don't tell nobody our business," Michael Tubbs's mother often told him growing up. For Michael, that meant a lot of things: don't tell anyone about the day-to-day struggle of being Black and broke in Stockton, CA. Don't tell anyone the pain of having a father incarcerated for 25 years to life. Don't tell anyone about living two lives, the brainy bookworm and the kid with the newest Jordans. And also don't tell anyone about the particular joys of growing up with three "moms"—a Nana who never let him miss church, an Auntie who'd take him to the library any time, and a mother, "She-Daddy", who schooled him in the wisdom of hip-hop and taught him never to take no for an answer. So for a long time Michael didn't tell anyone his story, but as he went on to a scholarship at Stanford and an internship in the Obama White House, he began to realize the power of his experience, the need for his perspective in the halls of power. By the time he returned to Stockton to become, in 2016 at age 26, its first Black mayor and the youngest-ever mayor of a major American city, he knew his story meant something. *The Deeper the Roots* is a memoir astonishing in its candor, voice, and clarity of vision. Tubbs shares with us the city that raised him, his family of badass women, his life-changing encounters with Oprah Winfrey and Barack Obama, the challenges of governing in the 21st century and everything in between—en route to unveiling his compelling vision for America rooted in his experiences in his hometown.

*A Rugged Nation* - Marco Armiero 2011

This book is part of a wider current in environmental history, that explores the links between nature and nation. It uncovers how Italian identity and mountains have constituted one another.

[Single-Cell-Based Models in Biology and Medicine](#) - Alexander Anderson 2007-08-08

Aimed at postgraduate students in a variety of biology-related disciplines, this volume presents a collection of mathematical and computational single-cell-based models and their application. The main sections cover four general model groupings: hybrid cellular automata, cellular potts, lattice-free cells, and viscoelastic cells. Each section is introduced by a discussion of the applicability of the particular modelling approach and its advantages and disadvantages, which will make the book suitable for students starting research in mathematical biology as well as scientists modelling multicellular processes.

[Baby, Don't Hurt Me](#) - Chris Kattan 2019-05-07

You may know him as Mango, Mr. Peepers, the gibberish-spouting Suel Forrester, or one half of the head-bopping brothers in *A Night at the Roxbury*. Maybe you remember him as the forlorn gothic kid Azrael Abyss, Gay Hitler, or the guitarist in the "More Cowbell" sketch. Whichever it is, Chris Kattan has earned a spot in the hearts of a generation of comedy fans. Chris Kattan has defied comparison, expectations, and sometimes gravity with his inimitable style of physical comedy. By creating some of the most memorable Saturday Night Live characters, as well as his many roles in film and television, Kattan has remained one of the most fearless and versatile comedians in the world. Not long after Chris was labeled one of the improv group Groundlings' "must-see" performers in the company, he was cast on SNL—and within the first six weeks, Chris's film career also took off. Now, for the first time, Kattan opens up about eight seasons on SNL, performing alongside friends and future legends including Will Ferrell, Jimmy Fallon, and Tina Fey, and guest hosts from Charlize Theron to Tom Hanks to David Bowie. He also shares stories of his unusual childhood (involving a secluded mountain with zen monks) with Leonard Cohen and Alan Watts. *Baby, Don't Hurt Me* offers an unprecedented look into Chris's life, from his fascinating relationship with Lorne Michaels, a private Valentine's Day dinner with Tom Cruise and Katie Holmes, an unforgettable flight with Beyoncé, and even breaking his neck on live television. *Baby, Don't Hurt Me* is a candid, revealing memoir from a timeless comedian and a window into the world of millennium-era SNL, from the rehearsals to the after-after parties, as narrated by your hilarious and inspiring friend—who just so happened to be there for all of it.

[Piloting Palm](#) - Andrea Butter 2002-02-18

The definitive behind-the-scenes story of the visionary team that launched the handheld industry. Palm insider Andrea Butter and New York Times columnist David Pogue -- with full, exclusive cooperation of the company's founders and more than fifty key Palm and Handspring executives -- tell the riveting tale of the start of an industry constantly in the headlines. The origins of this volatile industry began with the tiny team who beat staggering odds to turn the PalmPilot into a billion-dollar market and later took their ultimate vision to Handspring, now Palm's most powerful rival. Many of today's current events relating to the competition in this industry are forecasted in this important business drama. The authors take an unprecedented look at how the visionary founders of the industry led one of the most successful startups in history to succeed against all odds—including a shoestring budget, shortsighted corporate partners, and competition from Microsoft. The roller-coaster ride is full of insight into the bumbles of venture capitalists, the allure and pitfalls of partnerships with giant corporations, and the steely determination needed to maintain entrepreneurial and visionary independence. With gripping accounts of the last-minute crises that almost torpedoed the PalmPilot on the eve of its unveiling, and the triumphant, unprecedented reception of Palm in the marketplace, as well as the glimpses into the future of this industry, this book is as entertaining as it is instructional. Key revelations include: \* The principles of business, economy, and product design that led Palm to succeed where billion-dollar corporations like Apple, Motorola, and Casio had failed. \* Important moments in technological development of the handheld such as the secret "Easter egg," a software surprise planted in the Palm software that nearly sank launch plans. \* Unique insight into the showdown with Microsoft, and 3Com's tragic decision not to make Palm independent that led Palm's founder Jeff Hanwkins and CEO Donna Dubinsky to take their vision elsewhere. \* The ongoing competition between Palm and Handspring. The new rivals to contend with including Sony.

Inventing the American Woman - Glenda Riley 1987

"This book ... presents an introduction to the history of women in the United States that combines factual knowledge with a specific thesis intended to provoke discussion and further thought. It is my hope that it will inform, enlighten, and expand the thinking of all who read it. In an attempt to achieve these goals, this book necessarily emphasizes what historian Kathryn Kish Sklar terms 'gender specific' experiences. It focuses on those historical episodes that are more germane to one gender than the other. Specifically, women's work, socialization, roles, activities, and cultural values are of primary concern. ... More specifically, this volume compares the model that was to direct American women's behavior with women's reactions to it."--From the introduction.

Universality and Identity Politics - Todd McGowan 2020-07-21

The great political ideas and movements of the modern world were founded on a promise of universal emancipation. But in recent decades, much of the Left has grown suspicious of such aspirations. Critics see the invocation of universality as a form of domination or a way of speaking for others, and have come to favor a politics of particularism—often derided as “identity politics.” Others, both centrists and conservatives, associate universalism with twentieth-century totalitarianism and hold that it is bound to lead to catastrophe. This book develops a new conception of universality that helps us rethink political thought and action. Todd McGowan argues that universals such as equality and freedom are not imposed on us. They emerge from our shared experience of their absence and our struggle to attain them. McGowan reconsiders the history of Nazism and Stalinism and reclaims the universalism of movements fighting racism, sexism, and homophobia. He demonstrates that the divide between Right and Left comes down to particularity versus universality. Despite the accusation of identity politics directed against leftists, every emancipatory political project is fundamentally a universal one—and the real proponents of identity politics are the right wing. Through a wide range of examples in contemporary politics, film, and history, *Universality and Identity Politics* offers an antidote to the impasses of identity and an inspiring vision of twenty-first-century collective struggle.

A Little Me - Amy Roloff 2019-05-15

TLC star Amy shares what it was like growing up with dwarfism, how she struggled to overcome obstacles both physical and emotional while learning, as we all must, to accept herself for who she is. “God doesn't make mistakes.” For Amy Roloff, star of TLC's hit reality show *Little People, Big World*, her father's words would repeatedly serve as an anchor, reminding her of her inherent worth and purpose, whenever feelings of insecurity and inadequacy surfaced and threatened to overwhelm her. In *A Little Me*, Amy shares what it was like growing up with achondroplasia dwarfism, how she struggled to overcome obstacles both physical and emotional—navigating the average-size world as a little person, dealing with a serious illness as a young girl, bullying, and issues of body image and unachievable beauty ideals—while learning, as we all must, to accept herself for who she is. Finally allowing herself to be vulnerable enough to open up to others, she learned that it's worth risking possible rejection for a chance at genuine relationships. Ultimately, it was Amy's faith, as well as the support and encouragement of her community of loving family and good friends, that saw her through the dark times and allowed her to realize her greatest dreams and beyond. Amy's memoir is an inspiring and at times heart-wrenching account of resilience and the strength of the human spirit to overcome seemingly insurmountable obstacles.

**Ask Amy** - Amy Dickinson 2013-05-14

For a decade, Amy Dickinson has been the Chicago Tribune's signature general advice columnist, helping readers with questions both personal and pressing. *Ask Amy: Advice for Better Living* is a collection of over 200 question-and-answer columns taken from 2011–2013. **Zen Filmmaking** - Scott Shaw 2018-10-17

Developed by Scott Shaw, the primary premise of Zen Filmmaking is that no screenplay should be used in the creation of a film. There are no rules and no definitions. The spontaneous creative energy of the

filmmaker is the only defining factor. This allows for a spiritually pure source of immediate inspiration to be the only guide in the filmmaking process. Thereby, leading the practitioner towards Cinematic Enlightenment. Within the pages of this book, Scott Shaw leads the reader through all of the elements of Zen Filmmaking-allowing one to emerge as a competent independent filmmaker, possessing all of the necessary skills to create a feature film, documentary, or music video in the easiest, most expedient, and enlightened manner possible. This book also takes the reader behind-the-scenes on several of Scott Shaw's feature films. This provides a unique insight into the filmmaking process while illustrating how to bypass many of the obstacles of filmmaking.
