On a scortcha of a day a typical Bostonian would visit Dunks for an "Iced" an

extra time or two, anyone with a pool will be getting a message asking "What are you doing today", and social media will be full of photos showing temperature gauges inside cars (unless you drive a "beater", they don't usually have temperature gauges). Even if we suffered a tough winter Bostonians will be complaining about the heat. In fact most conversations in Boston are weather related.....more (Page will have accompanying art, maybe a funny caricature of someone sweating in the heat or in a float in a pool, and will have some related facts about Boston weather.. maybe avg. temperatures during summer months) SAMPLE ENTRIES Weather Concepts Scortcha Wintah Muggie Food & Drink Concepts Dunks Frappe Tonic "Swigga Tonic" Badaydas (Potatoes) Transportation Concepts Bang A Uey Beater Statie Breakdown Lane Other Concepts, To Be Categorized: Sneakahs Hawahya? Lost Milwaukee - Carl Swanson 2018

From City Hall to the Pabst Theater, reminders of the past are part of the fabric of Milwaukee. Yet many historic treasures have been lost to

time. An overgrown stretch of the Milwaukee River was once a famous beer garden. Blocks of homes and apartments replaced the Wonderland Amusement Park. A quiet bike path now stretches where some of the fastest trains in the world previously thundered. Today's Estabrook Park was a vast mining operation, and Marquette University covers the old fairgrounds where Abraham Lincoln spoke. Author Carl Swanson recounts these stories and other tales of bygone days.

Downeast - Gigi Georges 2021-05-25

In *Downeast*, Gigi Georges follows five girls as they come of age in one of the most challenging and geographically isolated regions on the Eastern seaboard. Their stories reveal surprising truths about rural America and offer hope for its future. "It's almost impossible not to care about these fierce young women and cheer for their

hard-won successes" (Kirkus) in this "heartfelt portrait" and "worthy tribute" (Publishers Weekly). Nestled in Maine's far northeast corner, Washington County sits an hour's drive from the heart of famed and bustling Acadia National Park. Yet it's a world away. For Willow, Vivian, Mckenna, Audrey, and Josie—five teenage girls caught between tradition and transformation in this remote region—it is home. *Downeast* follows their journeys of heartbreak and hope in uncertain times, creating a nuanced and unique portrait of rural America with women at its center. Willow lives in the shadow of an abusive, drug-addicted father and searches for stability through photography and love. Vivian, a gifted writer, feels stifled by her church and town, and struggles to break free without severing family ties. Mckenna is a softball pitching phenom whose passion is the lobster-fishing she learned at her father's knee. Audrey is a beloved high school basketball star who earns a coveted college scholarship but

questions her chosen path. Josie, a Yale-bound valedictorian, is determined to take the world by storm. All five girls know the pain and joy of life in a region whose rugged beauty and stoicism mask dwindling populations, vanishing job opportunities, and pervasive opioid addiction. As the girls reach adulthood, they discover that despite significant challenges, there is much to celebrate in "the valley of the overlooked." Their stories remind us of the value of timeless ideals: strength of family and community, reverence for nature's rule, dignity in cracked hands and muddied shoes, and the enduring power of home. Revealed through the eyes of Willow, Vivian, McKenna, Audrey, and Josie, *Downeast* is based on four years of intimate reporting. The result is a beautifully rendered, emotionally startling, and vital book. *Downeast* will break readers' hearts yet offer them hope, providing answers to what the future may hold for rural America.

[The Leader in Me](#) - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The *Leader in Me* programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be

proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Butterfield's prints capture the beauty of Maine's varied landscapes, from Acadia to Katahdin, from inland ponds to brick-lined streets, from swimming holes to the rugged coast. Spanning all four seasons, this coloring book will delight young artists and adult colorers alike.

Baker Island - Cornelia J. Cesari 2018-06-18
Baker Island is a quintessential Maine island, frozen in time. It was settled in 1806 by one family, and the island's population peaked at about two dozen people in five households at mid-century. The US government made use of the island's strategic location at the entrance to Frenchman's Bay with a lighthouse and military facilities. Wealthy, artistic, and academic summer visitors to the region--so-called rusticators--discovered its charm as a day trip destination. However, by 1930, only the lightkeeper's family remained. Now mostly part

of Acadia National Park, these 123 acres are precious to a disproportionate number of people. Every season, visitors flock to the area, scenic tour airplanes fly overhead, and narrated boat tours skirt the shoreline. Park rangers lead interpretive tours almost daily, leaving from Bar Harbor for half-day visits. Each summer, thousands moor their private boats and row ashore--honeymooning, celebrating, and even scattering ashes. Five generations of rusticators have held picnics on the tempestuous south shore's expansive pink granite surface known as the "Dance Floor."

A Course Called Scotland - Tom Coyne

2018-07-03

NEW YORK TIMES BESTSELLER * "One of the best golf books this century." —Golf Digest Tom Coyne's A Course Called Scotland is a heartfelt and humorous celebration of his quest to play

golf on every links course in Scotland, the birthplace of the game he loves. For much of his adult life, bestselling author Tom Coyne has been chasing a golf ball around the globe. When he was in college, studying abroad in London, he entered the lottery for a prized tee time in Scotland, grabbing his clubs and jumping the train to St. Andrews as his friends partied in Amsterdam; later, he golfed the entirety of Ireland's coastline, chased pros through the mini-tours, and attended grueling Qualifying Schools in Australia, Canada, and Latin America. Yet, as he watched the greats compete, he felt something was missing. Then one day a friend suggested he attempt to play every links course in Scotland and qualify for the greatest championship in golf. The result is A Course Called Scotland, "a fast-moving, insightful, often funny travelogue encompassing the width of much of the British Isles" (GolfWeek), including St. Andrews, Turnberry, Dornoch, Prestwick, Troon, and Carnoustie. With his signature blend

of storytelling, humor, history, and insight, Coyne weaves together his “witty and charming” (Publishers Weekly) journey to more than 100 legendary courses in Scotland with compelling threads of golf history and insights into the contemporary home of golf. As he journeys Scotland in search of the game’s secrets, he discovers new and old friends, rediscovers the peace and power of the sport, and, most importantly, reaffirms the ultimate connection between the game and the soul. It is “a must-read” (Golf Advisor) rollicking love letter to Scotland and golf as no one has attempted it before.

Searching for Stars on an Island in Maine - Alan Lightman 2019-02-19

As a physicist, Alan Lightman has always held a scientific view of the world. But one summer evening, while looking at the stars from a small boat at sea, Lightman was overcome by the overwhelming sensation that he was merging with something larger than himself—an eternal unity, something absolute and immaterial. The result is an inspired, lyrical meditation from the acclaimed author of *Einstein's Dreams* that explores these seemingly contradictory impulses. Lightman draws on sources ranging from Saint Augustine's conception of absolute truth to Einstein's theory of relativity, and gives us a profound inquiry into the human desire for truth and meaning, and a journey along the different paths of religion and science that become part of that quest. This small but provocative book explores the tension between our yearning for certainty and permanence versus the modern scientific view that all things in the physical world are uncertain and impermanent.

Bert and I, and Other Stories from Down East - Marshall Dodge 1981

The Captains of Thor - Robert Frump
2018-10-06

Was it the captain's fault, as many said? Or did the company, the Coast Guard and the American Bureau of Shipping all have a hand on the helm of the SS El Faro as she steered too close to Hurricane Joaquin? This is an examination of a tragedy that has been well-researched and investigated -- heroically so at times -- by the United States Coast Guard and the National Transportation Safety Board. Three very well-done books have been published. All of these efforts produced detailed recommendations and observations and all are publicly available. I

commend them to you. My effort touches on the broad sweep and events of the tragedy and investigation, but if you want the detailed story of the final voyage of the ship, you're better off with the other books. My main goal here is to show how the SS El Faro fit into a larger system and culture -- one that I have been covering off and on as a journalist and author for 38 years. It's this system, I feel, that will result in another SS El Faro someday unless it is reformed.

Another note on style. My preference in non-fiction is "narrative." In other words, whenever I can, I tell a story and show what is happening; I prefer that to "telling" the reader, because I think "showing" is more readily absorbed. Humans learn through stories. Story telling rather than a lecture better illustrates the emotions at play here, as well as the moods, culture and vibe of the ship and the industry. This does not mean I take a pure poetic license. The dialogue quoted here is real, not made up. The material is factual.
