Bookmarks - A manual for combating hate speech online through human rights education - 2014-05-13

The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks is published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

Badass: Making Users Awesome - Kathy Sierra 2015-01-29
Note for ebook customers: The design and layout of this book play a key role in conveying the author's message. When creating the ebooks, we've tried to keep the look and feel of the print edition, but this means that not all e-reading devices will support the files. The EPUB format is optimized for iPad. The Mobi files are optimized for Kindle Fire tablets and phones and for Kindle reading apps. Imagine you're in a game with one objective: a bestselling product or service. The rules? No marketing budget, no PR stunts, and it must be sustainably successful.

No short-term fads. This is not a game of chance. It is a game of skill and strategy. And it begins with a single question: given competing products of equal pricing, promotion, and perceived quality, why does one outsell the others? The answer doesn't live in the sustainably successful products or services. The answer lives in those who use them. Our goal is to craft a strategy for creating successful users. And that strategy is full of surprising, counter-intuitive, and astonishingly simple techniques that don't depend on a massive marketing or development budget. Techniques typically overlooked by even the most well-funded, well-staffed product teams. Every role is a key player in this game. Product development, engineering, marketing, user experience, support—everyone on the team. Even if that team is a start-up of one. Armed with a surprisingly overlooked science and a unique POV, we can can reduce the role of luck. We can build sustainably successful products and services that rely not on unethical persuasive marketing tricks but on helping our users have deeper, richer experiences. Not just in the moments while they're using our product but, more importantly, in the moments when they aren't.

Richard Renaldi - 2017-10-05
"Since 2007, Richard Renaldi has been working on a series of photographs that involve approaching and asking complete strangers to physically interact while posing together for a portrait. Working on the street with a large format eight-by-ten-inch view camera, Renaldi encounters the subjects for his photographs in towns and cities all over the United States. He pairs them up and invites them to pose together, intimately, in ways that people are usually taught to reserve for their close friends and loved ones. Renaldi creates spontaneous and fleeting relationships between strangers, for the camera, often pushing his subjects beyond their comfort levels. These relationships may only last for the moment the shutter is released, but the resulting photographs are moving and provocative, and raise profound questions about the possibilities for positive human connection in a diverse society. -- Provided by publisher."--Publisher's description.
