The Cultural Cold War - Frances Stonor Saunders 2013-11-05

During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's

astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

Changes made in this twelfth edition are aimed squarely at illustrating the effect of this new world order on strategic-management theory and practice. ... This twelfth edition provides updated coverage of strategic-management concepts, theory, research, and techniques in the chapters."--Preface.

The Catholic Church and Power Politics in Latin America - Emelio Betances 2007

The Catholic Church acted as a mediator during social and political change in several Latin American countries from the 1960s through the 1990s: the Dominican Republic, Bolivia, Guatemala, Nicaragua, and El Salvador. Although the Catholic clergy was called to mediate in political crises in all five countries, in the Dominican Republic the Church's role as mediator was eventually institutionalized. A historical examination of church-state relations and case study of the Dominican Republic leads into important regional comparisons that broaden our understanding of the Catholic Church in the whole of Latin America.

The North American Mosaic - Commission for Environmental Cooperation (Montréal, Québec). Secretariat 2001

The North American Mosaic has four overarching features. First, it is, to the extent feasible, based on comparable information on the status and trends of major indicators of the state of the environment in Canada, Mexico, and the United States. Second, the report confirms that these three countries together make up an incredibly complex, dynamic, and interconnected ecosystem in which humans play a dominant and decisive role. Third, the report raises important and sometimes disquieting questions concerning the sustainability of some current trends. Finally, the report is a reminder that our economic, social, and physical well-being are utterly dependent on the life-sustaining services provided by nature. This report emphasizes the importance of developing mutually compatible economic, social, and environmental goals and policies across the three-country region.

Reinventing the Left in the Global South - Richard Sandbrook 2014-08-07

This book offers a fresh appraisal of the nature and significance of the

democratic Left in the Global South. The moral and intellectual leadership of the Left is shifting south from its European birthplace. It is in the Global South, most notably in Latin America, that one finds newly self-confident progressive movements. This 'new' democratic Left includes parties and social movements that not only are avoiding the familiar pitfalls that ensnared socialists and social democrats in the twentieth century, but also are coping with the realities of the twenty-first century, especially neoliberal globalization. In analyzing and illustrating three innovative strategies - moderate social democracy, radical social-democratic transition to socialism, and Left populism - this study nudges the debate about the Left out of the well-worn grooves into which it has fallen in recent decades.

Journalism and Memory - Barbie Zelizer 2014-02-14

Although journalism has always been an important vehicle of collective memory, it has been neglected in discussions about how memory works. This fascinating book aims to correct that disjuncture, by tracking the ways in which journalism and shared memory mutually support, undermine, repair and challenge each other. How is journalism's address to memory different from that of other institutions? What would the study of memory look like without journalism? And how would our understanding of journalism fall short without paying attention to memory? Bringing together leading scholars in journalism and memory studies, this collection makes explicit the longstanding and complicated role that journalism has played in keeping the past alive. From anniversary issues and media retrospectives to simple verbal and visual analogies connecting past and present, journalism incorporates an address to earlier times across the wide array of its conventions and practices. How it does so and which triumphs and problems ensue in our understanding of collective memory constitute the charter of this volume.

The Invention of Women - Oyèrónkẹ́ Oyěwùmí 1997

The "woman question", this book asserts, is a Western one, and not a proper lens for viewing African society. A work that rethinks gender as a Western construction, *The Invention of Women* offers a new way of understanding both Yoruban and Western cultures. Oyewumi traces the misapplication of Western, body-oriented concepts of gender through the history of gender discourses in Yoruba studies. Her analysis shows the paradoxical nature of two fundamental assumptions of feminist theory: that gender is socially constructed in old Yoruba society, and that social organization was determined by relative age.

Liquid Life - Zygmunt Bauman 2013-04-18

'Liquid life' is the kind of life commonly lived in our contemporary, liquid-modern society. Liquid life cannot stay on course, as liquid-modern society cannot keep its shape for long. Liquid life is a precarious life, lived under conditions of constant uncertainty. The most acute and stubborn worries that haunt this liquid life are the fears of being caught napping, of failing to catch up with fast moving events, of overlooking the 'use by' dates and being saddled with worthless possessions, of missing the moment calling for a change of tack and being left behind. Liquid life is also shot through by a contradiction: it ought to be a (possibly unending) series of new beginnings, yet precisely for that reason it is full of worries about swift and painless endings, without which new beginnings would be unthinkable. Among the arts of liquid-modern living and the skills needed to practice them, getting rid of things takes precedence over their acquisition. This and other challenges of life in a liquid-modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time.

One Hundred Years of Solitude - Gabriel Garcia Marquez 2003-06-24

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and

brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

The Journey of a Tzotzil-Maya Woman of Chiapas, Mexico - Christine Eber 2011-11-01

Most recent books about Chiapas, Mexico, focus on political conflicts and the indigenous movement for human rights at the macro level. None has explored those conflicts and struggles in-depth through an individual

woman's life story. The Journey of a Tzotzil-Maya Woman of Chiapas, Mexico now offers that perspective in one woman's own words. Anthropologist Christine Eber met "Antonia" in 1986 and has followed her life's journey ever since. In this book, they recount Antonia's life story and also reflect on challenges and rewards they have experienced in working together, offering insight into the role of friendship in anthropological research, as well as into the transnational movement of solidarity with the indigenous people of Chiapas that began with the Zapatista uprising. Antonia was born in 1962 in San Pedro Chenalhó, a Tzotzil-Maya township in highland Chiapas. Her story begins with memories of childhood and progresses to young adulthood, when Antonia began working with women in her community to form weaving cooperatives while also becoming involved in the Word of God, the

progressive Catholic movement known elsewhere as Liberation Theology. In 1994, as a wife and mother of six children, she joined a support base for the Zapatista Army of National Liberation. Recounting her experiences in these three interwoven movements, Antonia offers a vivid and nuanced picture of working for social justice while trying to remain true to her people's traditions.
