Old Homes of New England - Roderic H. Blackburn 2010-04-13

Old Homes of New England paints a stunning portrait of the charming and important old homes of the region, featuring storybook cottages in white clapboard as well ancient mansions in brick and stone. Cherished for its intimate, community-centered spirit, New England lays claim to some of the most wonderful architecture of the country—and, significantly, its buildings are among the nation's very oldest. Featured here are twenty-five of the most beautiful examples, ranging from the storied House of the Seven Gables of 1668, in its magnificent colonial splendor, to the Corwin House of 1675, nicknamed the "Witch House" for its direct association to the infamous Salem witch trials, to the bucolic Cogswell farmhouse of 1728. Each house exemplifies its style, which range from early colonial Pilgrim, Puritan, and Shaker, to later Georgian, Federal, and Greek Revival. With richly crafted interiors formed from old woods, fine plasterwork, thoughtfully set beams, brick, and stonework, the houses return us to a more gracious time when the simple pleasures of staying at home were paramount, a time to which many of us, even now, long to return.

The Color of Law: A Forgotten History of How Our Government Segregated America - Richard Rothstein 2017-05-02

New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson).

Exploding the myth of de facto segregation arising from private prejudice

or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past. *Plains Indians Coloring Book* - David Rickman 1983-08-01
