"poetry" (a term which in Greek literally means "making" and in this context includes drama - comedy, tragedy, and the satyr play - as well as lyric poetry and epic poetry). They are similar in the fact that they are all imitations but different in the three ways that Aristotle describes: 1. Differences in music rhythm, harmony, meter and melody. 2. Difference of goodness in the characters. 3. Difference in how the narrative is presented: telling a story or acting it out. In examining its "first principles," Aristotle finds two: 1) imitation and 2) genres and other concepts by which that of truth is applied/revealed in the poesis. His analysis of tragedy constitutes the core of the discussion. Although Aristotle's Poetics is universally acknowledged in the Western critical tradition, "almost every detail about his seminal work has aroused divergent opinions."

[John Dryden and His Drama Concept on the Example of His Tragedy All for Love, Or the World Well Lost in Comparison to Aristotle's Drama Concept](#) - Doreen Bärwolf 2010-09 Seminar paper from the year 2007 in the subject English - Literature, Works, grade: 3,0, <http://www.uni-jena.de/> (Anglistisch/Amerikanistisches Institut), course: Proseminar: Shakespearean plays and their literary reception in the Restoration Period, language: English, abstract: John Dryden was

one of the most famous writers of the 17th century and one of the most brilliant drama theorists. Therefore this paper wants to show the concepts of drama by John Dryden and Aristotle on the examples of Dryden's All for Love and Shakespeare's play Antony and Cleopatra as the adaptation original. The theory of the drama concept is based mainly on Aristotle, which is the fundament of all tragedy and comedy and especially for John Dryden's concept. Dryden used the theory of Aristotle very strictly and therefore shaped the tragedy writing of his time and after it will be the thesis of this paper. To prove this thesis the classical drama concept of Aristotle, which is the fundament of Shakespeare's and Dryden's theory, must be explained. Secondly Dryden's theory will be demonstrated as well as the concept of theatre in his time. Dryden lived in the Restoration era, so his thinking and his works are shaped by this time. Therefore Dryden's theory and concept of drama will be

analyzed in its historical context. After this discussion there will be an analyses of Dryden's way to adapt Shakespeare and his purpose by writing *All for Love*, which is the mostly read adaptation of Shakespeare. There will be a discussion of the character conception, the language of Dryden and the Restoration period and the so called three unities based on Aristotle's theory. The story of this play will be explained and the characters within this story. There will also be an analyses of the very special and typical scene of *All for Love* when Cleopatra and Octavia, the two rivals, speak to each other, and of other scenes as well. Afterwards follows a discussion of the themes love and duty, which are very typi

Theatricality in the Horror Film - André Loisel 2019-10-28

The horror film generally presents a situation where normality is threatened by a monster. From this premise, *Theatricality in the Horror Film* argues that scary movies often create their terrifying effects stylistically and structurally through a radical break with the realism of normality in the form of monstrous theatricality. *Theatricality in the horror film* expresses itself in many ways. For example, it comes across in the physical performance of monstrosity: the over-the-top performance of a chainsaw-wielding serial killer whose nefarious gestures terrify both his victims within the film and the audience in the cinema. Theatrical artifice can also appear as a stagy cemetery with broken-down

tombstones and twisted, gnarly trees, or through the use of violently aberrant filmic techniques, or in the oppressive claustrophobia of a single-room setting reminiscent of classical drama. Any performative element of a film that flaunts its difference from what is deemed realistic or normal on screen might qualify as an instance of theatrical artifice, creating an intense affect in the audience. This book argues that the artificiality of the frightening spectacle is at the heart of the dark pleasures of horror.

Another Opening, Another Show - Tom Markus 2019-04-25

Another Opening, Another Show derived from the authors asking students what they wanted in an introductory theatre textbook. They've given them exactly that: • A book that doesn't cost a lot • A book that is fun to read • A book that helps them understand and enjoy theatre • An insider's look at theatre, not a scholar's critique of it • An opportunity to learn about plays on a stage rather than plays on a page • Pictures that illustrate the ideas in the text instead of just decorating it Instructors will appreciate the Third Edition's modularity. Each chapter stands on its own, allowing for maximum flexibility for individual course needs. The book's inclusive approach touches on cultural diversity and gender issues in American theatre, as well as adding an entirely new chapter on Asian theatre. Photos of contemporary productions enrich the text, and a variety of side material shows

students how the concepts they read about are applied by theatre professionals.

The Development of the Drama - Brander Matthews 1906

The New Art of Writing Plays - Lope de Vega 1914

The Living Drama - Nellie Burget Miller 1924

This study will endeavor to present, in simple and concise form, a survey of this continuous

dramatic movement from its earliest recorded expression to contemporary moments under a single cover. Since to know thoroughly the dramatic output of any one period might command the industry of a lifetime, the task is a colossal one and precludes any pretense at completeness; the treatment is suggestive rather than informative, and should be supplemented by a study of the plays indicated under each section. After all, the important thing is not the painful piling of fact upon fact but gaining an intelligent working knowledge of the whole and knowing exactly where to turn for detail when it is needed. The information has been gathered from many works upon the various phases, to which the writer is deeply indebted, all of which are indicated in the bibliographies. We purpose, then, to take a sort of "Cook's Tour" over the whole domain of the drama, touching the main points of interest, and leaving the reader to return and explore at leisure.
