Half Sick of Shadows - Laura Sebastian 2021-07-06

"Laura Sebastian is the next Madeline Miller. . . . a fierce, fresh, lyrical tale that will enthrall until the last page."--Kate Quinn, New York Times bestselling author of *The Huntress* A Popsugar Best Summer Read of 2021 A Bibliolifestyle Most Anticipated Summer 2021 Sci-fi and Fantasy Book "Magical, haunting, unique--I haven't been so excited about an Arthur book since I read *The Once and Future King* ."--Tamora Pierce, #1 New York Times bestselling author *The Lady of Shalott* reclaims her story in this bold feminist reimagining of the Arthurian myth from the New York Times bestselling author of *Ash Princess*. Everyone knows the legend. Of Arthur, destined to be a king. Of the beautiful Guinevere, who will betray him with his most loyal knight, Lancelot. Of the bitter sorceress, Morgana, who will turn against them all. But Elaine alone carries the burden of knowing what is to come--for Elaine of Shalott is cursed to see the future. On the mystical isle of Avalon, Elaine runs free and learns of the ancient prophecies surrounding her and her friends--countless possibilities, almost all of them tragic. When their future comes to claim them, Elaine, Guinevere, Lancelot, and Morgana accompany Arthur to take his throne in stifling Camelot, where magic is outlawed, the rules of society chain them, and enemies are everywhere. Yet the most dangerous threats may come from within their own circle. As visions are fulfilled and an inevitable fate closes in, Elaine must decide how far she will go to change destiny--and what she is willing to sacrifice

along the way.

*National Geographic Little Kids First Big Book of Where* - Jill Esbaum 2020

Preschoolers are full of "Where?" questions, and this next book in the best-selling Little Kids First Big Book series is full of fascinating and often surprising answers for them. **The Love Hypothesis** - Ali Hazelwood

2021-09-14

The Instant New York Times Bestseller and TikTok Sensation! As seen on THE VIEW! A

BuzzFeed Best Summer Read of 2021 When a fake relationship between scientists meets the irresistible force of attraction, it throws one woman's carefully calculated theories on love into chaos. As a third-year Ph.D. candidate, Olive Smith doesn't believe in lasting romantic relationships--but her best friend does, and that's what got her into this situation.

Convincing Anh that Olive is dating and well on her way to a happily ever after was always going to take more than hand-wavy Jedi mind tricks: Scientists require proof. So, like any self-respecting biologist, Olive panics and kisses the first man she sees. That man is none other than Adam Carlsen, a young hotshot professor--and well-known ass. Which is why Olive is positively floored when Stanford's reigning lab tyrant agrees to keep her charade a secret and be her fake boyfriend. But when a big science conference goes haywire, putting Olive's career on the Bunsen burner, Adam surprises her again with his unyielding support and even more unyielding...six-pack abs. Suddenly their little experiment feels dangerously close to combustion. And Olive discovers that the only thing more complicated than a hypothesis on love is putting her own heart under the microscope.

**Big Book of Bugs** - Theresa Greenaway 2000  
Creepy crawlies are an endless fascination for young children. This book provides photographs of tiny creatures blown up to extra-ordinary sizes to reveal features that are not usually seen.

**National Geographic Kids Little Kids First Board Book: Space** - Ruth A. Musgrave 2019-04-30

National Geographic spins off its best-selling Little Kids First Big Book series into engaging new board books to introduce even the littlest kids to high-quality nonfiction. These sturdy pages explore the basics of the solar system with amazing photographs, super-simple facts, and lively, age-appropriate language to keep babies and toddlers--and their grown-ups--fascinated by every colorful page. With stunning photos of the Earth and other planets, this beautiful book introduces the very youngest explorers to the wonders of the space, beginning right here on Earth and expanding into the universe beyond. Designed to be the stepping stone to the Little Kids First Big Book series, the National

Geographic Little Kids First Board Books take similar subjects and drill them down to the simplest nonfiction concepts for the youngest audience. Not only will readers learn about planets and our solar system, they can also find recurring shapes and patterns in the design; occasional callouts will add humor for adults, and sidebar text offers additional learning for older siblings or those ready for more complex information. With their square shape, bright and playful design, awesome photography, clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

National Geographic Little Kids First Big Book of the Rain Forest - Moira Rose Donohue

2018-07-17

Colorful birds! Jaguars! Tree frogs! National Geographic presents a delightful, age-appropriate introduction to tropical rain forest creatures big and small in this new title in the popular Little Kids First Big Book series. This adorable animal book about all things jungle features favorite animals found in tropical rain forests. Readers meet jaguars prowling the forest floor, snakes slithering through the understory, red-eyed tree frogs leaping through the canopy, butterflies flitting through the tallest treetops, and many other creatures that inhabit all the different layers. More than 200 charming animal photos illustrate the profiles, with facts about the creatures' sizes, diets, homes, and more. A map of tropical rain forests around the world shows where the animals in the book are found, and the book also introduces readers to plant life. This book will quickly become a favorite at storytime, bedtime, and any time.

**First Big Book of the Ocean** - Catherine D. Hughes 2013

Introduces several of the ocean's species, provides profiles of creatures, from dolphins and sharks to sea otters and penguins, while sharing facts about their characteristics, diets, and habitats.

National Geographic Little Kids First Big Book of Science - Kathleen Weidner Zoehfeld 2019-03-26

This lively introduction to the fascinating world of science explores the different kinds of science, what scientists do, and the amazing

things that scientists study: animals and plants; oceans and space; earthquakes and volcanoes; sound and light; inventions and more! Make sure kids' first experience of the wonders of science is a thrilling eye-opener with this fun reference book. Fun activities, games, and simple experiments encourage interactive learning, showing kids that anyone can use scientific observation and experimentation to be a scientist and discover new things. With bright images and age-appropriate text, this book inspires kids to be curious, ask questions, and explore the world around them and maybe even grow up to be a scientist one day, too! Topics include astronomy, botany, paleontology, malacology (that's the science of clams, snails, and other animals with shells!), zoology, and more.

**National Geographic Little Kids First Big Book of Birds** - Catherine D. Hughes

2016-07-12

This adorable reference introduces young readers to birds of all kinds: big and small, flyers and swimmers, colorful and plain. They'll find backyard favorites, such as robins and cardinals and be introduced to more unique species that inhabit rain forests and deserts around the world. Bird behaviors kids can relate to, including singing, dancing, building, swimming, and diving, reveal fascinating insights into the avian world. More than 100 colorful photos are paired with profiles of each bird, along with facts about the creatures' sizes, diets, homes, and more. This charming book will quickly become a favorite at storytime, bedtime, and any other time.
