The Apple of His Eye - William Chester Jordan
2020-09-08

The thirteenth century brought new urgency to Catholic efforts to convert non-Christians, and no Catholic ruler was more dedicated to this undertaking than King Louis IX of France. His military expeditions against Islam are well documented, but there was also a peaceful side to his encounter with the Muslim world, one that has received little attention until now. This splendid book shines new light on the king's program to induce Muslims—the "apple of his eye"—to voluntarily convert to Christianity and resettle in France. It recovers a forgotten but important episode in the history of the Crusades while providing a rare window into the fraught experiences of the converts themselves. William Chester Jordan transforms our understanding of medieval Christian-Muslim relations by telling the stories of the Muslims who came to France to live as Christians. Under what circumstances did they willingly convert? How successfully did they assimilate into French society? What forms of resistance did they employ? In examining questions like these, Jordan weaves a richly detailed portrait of a dazzling yet violent age whose lessons still resonate today. Until now, scholars have dismissed historical accounts of the king's peaceful conversion of Muslims as hagiographical and therefore untrustworthy. Jordan takes these narratives seriously—and uncovers archival evidence to back them up. He brings his findings marvelously to life in this succinct and compelling book, setting them in

the context of the Seventh Crusade and the universalizing Catholic impulse to convert the world.

Poisoned Wells - Tzafrir Barzilay 2022-03-22
Between 1348 and 1350, Jews throughout Europe were accused of having caused the spread of the Black Death by poisoning the wells from which the entire population drank. Hundreds if not thousands were executed from Aragon and southern France into the eastern regions of the German-speaking lands. But if the well-poisoning accusations against the Jews during these plague years are the most frequently cited of such cases, they were not unique. The first major wave of accusations came in France and Aragon in 1321, and it was lepers, not Jews, who were the initial targets. Local authorities, and especially municipal councils, promoted these charges so as to be able to seize the property of the leprosaria, Tzafrir Barzilay contends. The allegations eventually expanded to describe an international conspiracy organized by Muslims, and only then, after months of persecution of the lepers, did some nobles of central France implicate the Jews, convincing the king to expel them from the realm. In *Poisoned Wells* Barzilay explores the origins of these charges of well poisoning, asks how the fear took root and moved across Europe, which groups it targeted, why it held in certain areas and not others, and why it waned in the fifteenth century. He argues that many of the social, political, and environmental factors that fed the rise of the mass poisoning

accusations had already appeared during the thirteenth century, a period of increased urbanization, of criminal poisoning charges, and of the proliferation of medical texts on toxins. In studying the narratives that were presented to convince officials that certain groups committed well poisoning and the legal and bureaucratic mechanisms that moved rumors into officially accepted and prosecutable crimes, Barzilay has written a crucial chapter in the long history of the persecution of European minorities.

The Seventh Crusade, 1244-1254 -
2020-04-22

The Seventh Crusade, led by King Louis IX of France, was the last major expedition for the recovery of the Holy Land actually to reach the Near East. The failure of his invasion of Egypt (1249-50), followed by his four-year stay in Palestine in order to retrieve the disaster, had a profound impact on the Latin West. In addition, Louis's operations in the Nile delta indirectly precipitated the Mamluk coup d'état, which ended the rule of the Ayyubids, Saladin's dynasty, in Egypt and began the transfer of power there to a military elite that would prove to be a far more formidable enemy to the Franks of Syria and Palestine. This volume comprises translations of the principal documents and of extracts from narrative sources - both Muslim and Christian - relating to the crusade, and includes many texts, notably the account of Ibn Wasil, not previously available in English. The themes covered include: the preparations and search for allies; the campaign in the Nile delta; the impact on recruitment of the simultaneous crusade against the emperor Frederick II; the Mamluk coup and its immediate consequences in the Near East; Western reactions to the failure in Egypt; and the popular 'crusade' of the Pastoureaux in France (1251), which aimed originally to help the absent king, but which degenerated into violence against the clergy and the Jews and had to be suppressed by force.

Marino Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross - Peter Lock
2016-05-06

This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this, his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide-reading of other sources especially of William of Tyre, and, for events after 1184 on the Eracles, the letters of James of Vitry, and Sanudo's own

experiences in the east. Throughout, the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe.

A History of the Teutonic Knights in Prussia 1190-1331 - Nicolaus (von Jeroschin) 2010

This is the first English translation of the 'Chronicle of Prussia', which was written by Nicolaus von Jeroschin, in middle German verse, during the period from 1330 to 1341. It is a history of the Teutonic Knights, encompassing the period between the foundation of the order, in 1190, and 1331. It is also an engaging and lively account of warfare and colonisation on the eastern frontier of Latin Christianity.

The Crusades - Thomas Asbridge 2012-01-19

'Asbridge can't help but tell a ripping yarn, often breezily dramatic, whipping the narrative along'

The Times A superb and definitive one-volume account of the Crusades, the impact of which still resonates to this day. In the eleventh century, a vast Christian army, summoned to holy war by the Pope, rampaged through the Muslim world of the eastern Mediterranean, seizing possession of Jerusalem, a city revered by both faiths. Over the two hundred years that followed this First Crusade, Islam and the West fought for dominion of the Holy Land, clashing in a succession of chillingly brutal wars, both firm in the belief that they were at God's work. The Crusades tells the story of this epic struggle from the perspective of both Christians and Muslims, reconstructing the experiences and attitudes of those on either side of the conflict. Mixing pulsing narrative and piercing insight, it exposes the full horror, passion and barbaric grandeur of the crusading era. 'A dramatic and powerful look at both sides of the story' Sunday Times 'A compelling narrative... A masterful conclusion' Observer

The Seventh Crusade, 1244-1254 - Peter Jackson 2009

The Seventh Crusade, led by King Louis IX of France, was the last major expedition for the recovery of the Holy Land actually to reach the Near East and its failure had wide repercussions both in the West and in Egypt and Palestine. This volume comprises translations of the

principal documents and of extracts from narrative sources - both Muslim and Christian - relating to the crusade, and includes many texts, notably the account of Ibn Wasil, not previously available in English.

The Chanson d'Antioche - Carol Sweetenham 2016-03-23

The Old-French Chanson d'Antioche has long intrigued historians and literary scholars. Unusually among epic poems, it follows closely a well documented historical event - the First Crusade - and appears to include substantial and genuine historical content. At one time it was believed to be based on an account by an eye-witness, 'Richard the Pilgrim'. Carol Sweetenham and Susan Edgington have combined forces to investigate such claims, and their findings are set out in a comprehensive introduction which, firstly, examines the textual history of the poem from its possible oral beginnings through several re-workings to its present form, achieved early in the thirteenth century. A second chapter assesses the Chanson's value as a source for the crusade, and a third considers its status as a literary text. A complete prose translation follows, the first in English and based on the definitive edition. The Chanson is revealed as a lively narrative, with tales of chivalry, villainy, and even episodes of humour. There are extensive footnotes to the translation, and an appendix provides supplementary material from a different manuscript tradition. There is also a cast list of heroes and villains with biographical information for the 'real' ones and literary analogues for the fictional characters. The Chanson d'Antioche can now be read for enjoyment, and for a whole new perspective on crusading in the twelfth and thirteenth centuries.

Shifting Currents - Karen Eva Carr 2022-07-18

A deep dive into the history of aquatics that exposes centuries-old tensions of race, gender, and power at the root of many contemporary swimming controversies. *Shifting Currents* is an original and comprehensive history of swimming. It examines the tension that arose when non-swimming northerners met African and Southeast Asian swimmers. Using archaeological, textual, and art-historical sources, Karen Eva Carr shows how the water simultaneously attracted and repelled these

northerners—swimming seemed uncanny, related to witchcraft and sin. Europeans used Africans' and Native Americans' swimming skills to justify enslaving them, but northerners also wanted to claim water's power for themselves. They imagined that swimming would bring them health and demonstrate their scientific modernity. As Carr reveals, this unresolved tension still sexualizes women's swimming and marginalizes Black and Indigenous swimmers today. Thus, the history of swimming offers a new lens through which to gain a clearer view of race, gender, and power on a centuries-long scale.

The Race for Paradise - Paul M. Cobb 2016-09
"In *The Race for Paradise*, Paul M. Cobb offers an accurate and accessible representation of the Islamic experience of the Crusades during the Middle Ages. Cobb overturns previous claims and presents new arguments, such as the idea that the Frankish invasions of the Near East were something of a side-show to the broader internal conflict between Sunnis and Shi'ites in the region. *The Race for Paradise* moves along two fronts as Cobb stresses that, for medieval Muslims, the contemporaneous Latin Christian expansion throughout the Mediterranean was seen as closely linked to events in the Levant. As a consequence of this expanded geographical range, the book takes a broader chronological range to encompass the campaigns of Spanish kings north of the Ebro and the Norman conquest of Sicily (beginning in 1060), well before Pope Urban II's famous call to the First Crusade in 1095. Finally, *The Race for Paradise* brilliantly combats the trend to portray the history of the Crusades, particularly the Islamic experience, in simplistic or binary terms. Muslims did not solely experience the Crusades as fanatical warriors or as helpless victims, Cobb writes; as with any other human experience of similar magnitude, the Crusades were experienced in a great variety of ways, ranging from heroic martyrdom, to collaboration, to utter indifference"--

The Crusade of Frederick Barbarossa -
2016-03-16

This is the first English translation of the main contemporary accounts of the Crusade and death of the German Frederick I Barbarossa (ruled 1152-90). The most important of these,

the 'History of the Expedition of the Emperor Frederick' was written soon after the events described, and is a crucial, and under-used source for the Third Crusade (at least in the Anglophone world). The account begins with two letters describing the disaster of Hattin and Saladin's subsequent conquest of most of the Holy Land (the second of these is addressed to the duke of Austria). It goes on to describe how the emperor took the Cross, the preparations and recruitment for the Crusade, the diplomatic contacts of Barbarossa with the Byzantine Emperor and the Sultan of Iconium in an attempt to secure a peaceful passage for the expedition, and the Crusade itself: the journey through the Balkans and the gruelling march through Asia Minor, beset by Turkish attack, until its arrival at Antioch on 21st July 1190, eleven days after the emperor had drowned while crossing a river in Cilician Armenia. The 'History' gives a vivid account of the sufferings of the German army as it traversed Asia Minor. The account of the expedition itself appears to be, or to be based upon an eyewitness record, cast in the form of (often) a daily memoir. However, it concludes with an account of the captivity and release of Richard I in Germany, Henry VI's conquest of the kingdom of Sicily, and of the preparations for a new Crusade under his leadership. In addition, a number of further accounts related to, and expanding, the 'History of the Expedition' have also been translated, including a contemporary newsletter about the death of the emperor, as well as the narrative of Otto of St Blasien, placing the Crusade into context twenty years later, and a contemporary account of the capture of Silves in Portugal by German crusaders on their way to the Holy Land in 1189. This collection is a valuable companion volume to the three other volumes relating to the Third Crusade in this series: *The Conquest of Jerusalem and the Third Crusade*, trans. Edbury, *The Itinerarium Peregrinorum et Gesta Regis Ricardi*, trans. Nicholson, and *The Rare and Excellent History of Saladin*, trans. Richards.

Pilgrimage to Jerusalem and the Holy Land, 1187-1291 - Professor Denys Pringle
2013-07-28

This book presents new translations of a selection of Latin and French pilgrimage texts - and two in Greek - relating to Jerusalem and the

Holy Land between the fall of Jerusalem to Saladin in 1187 and the loss of Acre to the Mamluks in 1291. It therefore complements and extends existing studies, which deal with the period from Late Antiquity to Saladin's conquest. Such texts provide a wealth of information not only about the business of pilgrimage itself, but also on church history, topography, architecture and the social and economic conditions prevailing in Palestine in this period. Pilgrimage texts of the 13th century have not previously been studied as a group in this way; and, because the existing editions of them are scattered across a variety of rather obscure publications, they tend to be under-utilized by historians, despite their considerable interest. For instance, they are often more original than the texts of the 12th century, representing first-hand accounts of travellers rather than simple reworkings of older texts. Taken together, they document the changes that occurred in the pattern of pilgrimage after the fall of Jerusalem in 1187, during its brief reoccupation by the Franks between 1229 and 1244, and during the period from 1260 onwards when the Mamluks gradually took military control of the whole country. In the 1250s-60s, for example, because of the difficulties faced by pilgrims in reaching Jerusalem itself, there developed an alternative set of holy sites offering indulgences in Acre. The bringing of Transjordan, southern Palestine and Sinai under Ayyubid and, later, Mamluk control also encouraged the development of the pilgrimage to St Catherine's monastery on Mount Sinai in this period. The translations are accompanied by explanatory footnotes and preceded by an introduction, which discusses the development of Holy Land pilgrimage in this period and the context, dating and composition of the texts themselves. The book concludes with a comprehensive list of sources and a detailed index.

War and Memory at the Time of the Fifth Crusade - Megan Cassidy-Welch 2019-06-28

In this book, Megan Cassidy-Welch challenges the notion that using memories of war to articulate and communicate collective identity is exclusively a modern phenomenon. *War and Memory at the Time of the Fifth Crusade* explores how and why remembering war came to be culturally meaningful during the early

thirteenth century. By the 1200s, discourses of crusading were deeply steeped in the language of memory: crusaders understood themselves to be acting in remembrance of Christ's sacrifice and following in the footsteps of their ancestors. At the same time, the foundational narratives of the First Crusade began to be transformed by vernacular histories and the advent of crusading romance. Examining how the Fifth Crusade was remembered and commemorated during its triumphs and immediately after its disastrous conclusion, Cassidy-Welch brings a nuanced perspective to the prevailing historiography on war memory, showing that remembering war was significant and meaningful centuries before the advent of the nation-state. This thoughtful and novel study of the Fifth Crusade shows it to be a key moment in the history of remembering war and provides new insights into medieval communication. It will be invaluable reading for scholars interested in the Fifth Crusade, medieval war memory, and the use of war memory.

The Crusade of Frederick Barbarossa - Frederick I (Holy Roman Emperor) 2013-05-31

This is the first English translation of the main contemporary accounts of the Crusade and death of the German Emperor Frederick I Barbarossa (ruled 1152-90). The principal text here, the 'History of the Expedition of the Emperor Frederick', was written soon after the events described, and is a crucial, and much under-used source for the Third Crusade. It narrates the preparations and recruitment for the Crusade, and the Crusade itself: the journey through the Balkans and the gruelling march through Asia Minor, beset by Turkish attack, until its arrival at Antioch on 21st July 1190, eleven days after the emperor had drowned while crossing a river in Cilician Armenia. The 'History' gives a vivid account of the sufferings of the German army as it traversed Asia Minor and appears to be, or to be based upon an eyewitness record, cast in the form of (often) a daily memoir. A number of subsidiary texts also translated illustrate and expand this main account, and place the crusade in context.

Crusades - Benjamin Z. Kedar 2016-08-12

Crusades covers seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on

theatres of war, their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but studies and interpretative essays are welcomed too. Crusades appears in both print and online editions. Volume 8 begins with Adrian J. Boas and Aren M. Maeir on the Frankish Castle of Blanche Garde and the Medieval and Modern Village of Tell es-Safi in the light of recent discoveries.

The Templars, the Hospitallers and the Crusades - Helen J. Nicholson 2020-05-18

This book pays homage to the work of a scholar who has substantially advanced knowledge and understanding of the medieval military-religious orders. Alan J. Forey has published over seventy meticulously researched articles on every aspect of the military-religious orders, two books on the Templars in the Corona de Aragón, and a wide-ranging survey of the military-religious orders from the twelfth to the early fourteenth centuries. His archival research has been especially significant in opening up the history of the military orders in the Iberian Peninsula. This volume comprises an appreciation of Forey's work and a range of research that has been inspired by his scholarship or develops themes that run through his work. Articles reflect Forey's detailed research into and analysis of primary sources, as well as his work on the military orders, the crusades, the eastern Mediterranean, and the trial of the Templars. Further papers move beyond the geographical and chronological bounds of Forey's research, while still exploring his themes of the military-religious orders' relations with the Church and State.

Years 589-629/1193-1231 - 'Izz al-Dīn Ibn al-Athīr 2008

The Chronicle of Ibn al-Athīr (1160-1233AD), entitled al-Kamil fi'l-Ta'rikh, is one of the outstanding sources for the history of the mediaeval world. It covers the whole sweep of

Islamic history almost up to the death of its author; events in Iraq, Iran and further East run in counterpoint with those involving North Africa and Spain. From the time of the arrival of the Crusaders in the Levant, their activities and the Muslim response become the focus of the work. A focus of this third part is the internal rivalries of Saladin's Ayyubid successors, their changing relations with the Crusader states, the Damietta Crusade, and the first incursions of the Mongols.

The Old French William of Tyre - Philip D. Handyside 2015-01-27

In *The Old French of William of Tyre* Philip Handyside offers an analysis of the Old French Translation of William of Tyre's history of the Crusades and the Kingdom of Jerusalem (1095-1184).

Tree of Pearls - D. Fairchild Ruggles 2020-05-19

Shajar al-Durr--known as "Tree of Pearls"--began her remarkable career as a child slave, given as property to the Ayyubid Sultan Salih of Egypt. She became his favorite concubine, was manumitted, became the sultan's wife, served as governing regent, and ultimately rose to become the legitimately appointed sultan of Egypt in 1250 after her husband's death. Shajar al-Durr used her wealth and power to add a tomb to his urban madrasa; with this innovation, madrasas and many other charitably endowed architectural complexes became commemorative monuments, a practice that remains widespread today. A highly unusual case of a Muslim woman authorized to rule in her own name, her reign ended after only three months when she was forced to share her governance with an army general from the ranks of the Mamluks (elite slave soldiers) and for political expediency to marry him. Despite the fact that Shajar al-Durr's story ends tragically with her assassination and hasty burial, her deeds in her lifetime offer a stark alternative to the continued belief that women in the medieval period were unseen, anonymous, and inconsequential in a world that belonged to men. This biography--the first ever in English--will place the rise and fall of the sultan-queen in the wider context of the cultural and architectural development of Cairo, the city that still holds one of the largest and most important collections of Islamic monuments in the world. D. Fairchild Ruggles also situates the queen's extraordinary architectural patronage in relation to other women of her own time, such as Aleppo's Ayyubid regent. *Tree of Pearls* concludes with a lively discussion of what we

can know about the material impact of women of both high and lesser social rank in this period, and why their impact matters in the writing of history.

Nicholas of Cusa - A Companion to his Life and his Times - Morimichi Watanabe 2016-05-06

This work is a guide to the life, thought and activities of Nicholas of Cusa (1401-1464), the great fifteenth-century philosopher, theologian, jurist, author of mystical and ecclesiastical treatises, cardinal and reformer. It is intended not only for advanced scholars, but also for beginners and those simply curious about a man who has been called 'one of the greatest Germans of the fifteenth century' and a 'medieval thinker for the modern age'. The book provides a series of detailed but readable essays on ideas, persons, and places, a work developed over the course of nearly three decades. First, it contains articles on the important events and concepts that affected Cusanus--philosophical, religious, intellectual and political. Then it turns to his precursors and contemporaries, both friendly and critical. These include philosophers, theologians, politicians, and canon lawyers. And third, the book follows the footsteps of the man from Kues and examines various sites where he lived, studied, or visited. Because the author has also visited many of these sites, he can contribute personal observations to enliven the journey. To add to the book's usefulness as a resource and reference tool, each entry is followed by a bibliography containing both recent and older works. The purpose of the volume is to gain a greater appreciation of Cusanus and his legacy by striving for a total view of his thought and experience instead of narrowly focusing on specific philosophical, theological or intellectual ideas, or certain periods of his activities in isolation from other facets of this compelling figure.

The Sanctity of Louis IX - M. Cecilia Gaposchkin 2013-12-15

Louis IX of France reigned as king from 1226 to 1270 and was widely considered an exemplary Christian ruler, renowned for his piety, justice, and charity toward the poor. After his death on crusade, he was proclaimed a saint in 1297, and today Saint Louis is regarded as one of the central figures of early French history and the High Middle Ages. In *The Sanctity of Louis IX*,

Larry F. Field offers the first English-language translations of two of the earliest and most important accounts of the king's life: one composed by Geoffrey of Beaulieu, the king's long-time Dominican confessor, and the other by William of Chartres, a secular clerk in Louis's household who eventually joined the Dominican Order himself. Written shortly after Louis's death, these accounts are rich with details and firsthand observations absent from other works, most notably Jean of Joinville's well-known narrative. The introduction by M. Cecilia Gaposchkin and Sean L. Field provides background information on Louis IX and his two biographers, analysis of the historical context of the 1270s, and a thematic introduction to the texts. An appendix traces their manuscript and early printing histories. The Sanctity of Louis IX also features translations of Boniface VIII's bull canonizing Louis and of three shorter letters associated with the earliest push for his canonization. It also contains the most detailed analysis of these texts, their authors, and their manuscript traditions currently available.

The Chronicle of Prussia by Nicolaus von Jeroschin - 2016-03-23

This is the first English translation of the 'Chronicle of Prussia', which was written by Nicolaus von Jeroschin, in middle German verse, during the period from 1330 to 1341. It is a history of the Teutonic Knights, encompassing the period between the foundation of the order,

in 1190, and 1331. The translator's introduction sets the work in its historical and cultural context. The text was written at the instigation of the Grand Master of the Teutonic Order, to make an account of the ethos and history of the order's conquest of Prussia available 'to all German people'. Its purpose was to remind the order's knight brothers and its supporters of its origins and past achievements, but above all it was intended to establish the legitimacy of Prussia as a locus for crusades, setting the scene for the order's 'golden age' in the second half of the fourteenth century. The chronicle's content is divided into three sections: it opens with a description of the founding of the order in Acre. There follows a discourse on the nature of spiritual and earthly warfare, which echoes the ideology of crusading warfare first articulated by Bernhard of Clairvaux in his treatise *De laude novae militiae*. The final, longest, section recounts the wars of the Teutonic Knights against the Prussians and Lithuanians from 1230 until the narrative breaks off abruptly in 1331. The chronicle is the main historical source document for the period it covers and was widely disseminated during the fourteenth and fifteenth centuries. It is also an engaging and lively account of warfare and colonisation on the eastern frontier of Latin Christianity.

The Cambridge Companion to Francis of Assisi - Michael J. P. Robson 2012

Looks at the life of Francis of Assisi and explores how his heritage influenced the apostolic activities of his followers.

The Book of the Secrets of the Faithful of the Cross - Marino Sanudo 2011

This is the first full English translation of Marino Sanudo Torsello's *Secreta fidelium Crucis*, a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321 and based on the translation edited by Jacques Bongars in 1611. With references to 13th-century Mediterranean history, especially Louis IX of France and Charles of Anjou, it contains a vast amount of cartographical, ethnographical, geographical and nautical information, with unique insights into events and personalities not only in Outremer, but in Western Europe.

Remembering the Crusades and Crusading - Megan Cassidy-Welch 2016-11-03

Remembering the Crusades and Crusading

examines the diverse contexts in which crusading was memorialised and commemorated in the medieval world and beyond. The collection not only shows how the crusades were commemorated in the twelfth and thirteenth centuries, but also considers the longer-term remembrance of the crusades into the modern era. This collection is divided into three sections, the first of which deals with the textual, material and visual sources used to remember. Each contributor introduces a particular body of source material and presents case studies using those sources in their own research. The second section contains four chapters examining specific communities active in commemorating the crusades, including religious communities, family groups and royal courts. Finally, the third section examines the cultural memory of crusading in the Byzantine, Iberian and Baltic regions beyond the early years, as well as the trajectory of crusading memory in the Muslim Middle East. This book draws together and extends the current debates in the history of the crusades and the history of memory and in so doing offers a fresh synthesis of material in both fields. It will be essential reading for students of the crusades and memory.

Freedom, Imprisonment, and Slavery in the Pre-Modern World - Albrecht Classen
2021-04-19

Contrary to common assumptions, medieval and early modern writers and poets often addressed the high value of freedom, whether we think of such fable authors as Marie de France or Ulrich Bonerius. Similarly, medieval history knows of numerous struggles by various peoples to maintain their own freedom or political independence. Nevertheless, as this study illustrates, throughout the pre-modern period, the loss of freedom could happen quite easily, affecting high and low (including kings and princes) and there are many literary texts and historical documents that address the problems of imprisonment and even enslavement (Georgius of Hungary, Johann Schiltberger,

Hans Ulrich Krafft, etc.). Simultaneously, philosophers and theologians discussed intensively the fundamental question regarding free will (e.g., Augustine) and political freedom (e.g., John of Salisbury). Moreover, quite a large number of major pre-modern poets spent a long time in prison where they composed some of their major works (Boethius, Marco Polo, Charles d'Orléans, Thomas Malory, etc.). This book brings to light a vast range of relevant sources that confirm the existence of this fundamental and impactful discourse on freedom, imprisonment, and enslavement. [Marino Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross](#) - Dr Peter Lock
2013-07-28

This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this, his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide-reading of other sources especially of William of Tyre, and, for events after 1184 on the Eracles, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout, the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights

into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe.

Letters from the East - Malcolm Barber
2016-05-06

No written source is entirely without literary artifice, but the letters sent from Asia Minor, Syria and Palestine in the high middle ages come closest to recording the real feelings of those who lived in and visited the crusader states. They are not, of course, reflective pieces, but they do convey the immediacy of circumstances which were frequently dramatic and often life-threatening. Those settled in the East faced crises all the time, while crusaders and pilgrims knew they were experiencing defining moments in their lives. There are accounts of all the great events from the triumph of the capture of Jerusalem in 1099 to the disasters of Hattin in 1187 and the loss of Acre in 1291. These had an impact on the lives of all Latin Christians, but at the same time individuals felt impelled to describe both their own personal achievements and disappointments and the wonders and horrors of what they had seen. Moreover, the representatives of the military and monastic orders used letters as a means of maintaining contact with the western houses, providing information about the working of religious orders not found elsewhere. Some of the letters translated here are famous, others hardly known, but all offer unique insight into the minds of those who took part in the crusading movement.

Crusaders and Revolutionaries - Darren Baker
2021-01-30

One of the families that dominated the thirteenth century were the de Montforts. They arose in France, in a hamlet close to Paris, and grew to prominence under the crusading fervor of that time, taking them from leadership in the Albigensian wars to lordships around the Mediterranean. They marry into the English aristocracy, join the crusade to the Holy Land, then another crusade in the south of France against the Cathars. The controversial stewardship of Simon de Montfort (V) in that conflict is explored in depth. It is his son Simon de Montfort (VI) who is perhaps best known. His rebellion against Henry III of England ultimately establishes the first parliamentary state in

Europe. The decline of the family begins with Simon's defeat and death at Evesham in 1265. Initially they revive their fortunes under the new king of Sicily, but they scandalize Europe with a vengeful political murder. By this time it is the twilight of the crusades era and the remaining de Montforts either perish or are expelled. Eleanor de Montfort, the last Princess of Wales, dies in childbirth and her daughter is raised as a nun.

[The Chronicle of Ibn al-Athir for the Crusading Period from al-Kamil fi'l-Ta'rikh. Part 3](#) -
2020-04-22

The Chronicle of Ibn al-Athir (1160-1233AD), entitled "al-Kamil fi'l-Ta'rikh", is one of the outstanding sources for the history of the mediaeval world. It covers the whole sweep of Islamic history almost up to the death of its author and, with the sources available to him, he attempted to embrace the widest geographical spread; events in Iraq, Iran and further East run in counterpoint with those involving North Africa and Spain. From the time of the arrival of the Crusaders in the Levant, their activities and the Muslim response become the focus of the work. A significant portion of this third part deals with the internal rivalries of the Ayyubid successors of Saladin, their changing relations with the Crusader states and in particular the events of the Damietta Crusade. As always, these events are portrayed against the wider background, with considerable emphasis on events in the eastern Islamic world, the fortunes of the Khwarazm Shahs and the first incursions of the Mongols.

The Concise History of the Crusades -
Thomas F. Madden 2014-03-16

What is the relationship between the medieval crusades and the problems of the modern Middle East? Were the crusades the Christian equivalent of Muslim jihad? In this sweeping yet crisp history, Thomas F. Madden offers a brilliant and compelling narrative of the crusades and their contemporary relevance. Placing all of the major crusades within their social, economic, religious, and intellectual environments, Madden explores the uniquely medieval world that led untold thousands to leave their homes, families, and friends to march in Christ's name to distant lands. From Palestine and Europe's farthest reaches, each crusade is

recounted in a clear, concise narrative. The author gives special attention as well to the crusades' effects on the Islamic world and the Christian Byzantine East.

The Chronicle of Prussia by Nicolaus von Jeroschin - Dr Mary Fischer 2013-07-28

This is the first English translation of the 'Chronicle of Prussia', which was written by Nicolaus von Jeroschin, in middle German verse, during the period from 1330 to 1341. It is a history of the Teutonic Knights, encompassing the period between the foundation of the order, in 1190, and 1331. The translator's introduction sets the work in its historical and cultural context. The text was written at the instigation of the Grand Master of the Teutonic Order, to make an account of the ethos and history of the order's conquest of Prussia available 'to all German people'. Its purpose was to remind the order's knight brothers and its supporters of its origins and past achievements, but above all it was intended to establish the legitimacy of Prussia as a locus for crusades, setting the scene for the order's 'golden age' in the second half of the fourteenth century. The chronicle's content is divided into three sections: it opens with a description of the founding of the order in Acre. There follows a discourse on the nature of spiritual and earthly warfare, which echoes the ideology of crusading warfare first articulated by Bernhard of Clairvaux in his treatise *De laude novae militiae*. The final, longest, section recounts the wars of the Teutonic Knights against the Prussians and Lithuanians from 1230 until the narrative breaks off abruptly in 1331. The chronicle is the main historical source document for the period it covers and was widely disseminated during the fourteenth and fifteenth centuries. It is also an engaging and lively account of warfare and colonisation on the eastern frontier of Latin Christianity.

Letters from the East - Mr Keith Bate
2013-07-28

This volume presents translations of a selection of the letters sent by crusaders and pilgrims from Asia Minor, Syria and Palestine. There are accounts of all the great events from the triumph of the capture of Jerusalem in 1099 to the disasters of Hattin in 1187 and the loss of Acre in 1291. They convey the immediacy of circumstances which were frequently dramatic

and often life-threatening, and show us the feelings of those who lived in and visited the crusader states. Some of the letters translated here are famous, others hardly known, but all offer unique insight into the minds of those who took part in the crusading movement.

The Chanson d'Antioche - Dr Carol Sweetenham
2013-07-28

The Old-French *Chanson d'Antioche* has long intrigued historians and literary scholars. Unusually among epic poems, it follows closely a well documented historical event – the First Crusade – and appears to include substantial and genuine historical content. At one time it was believed to be based on an account by an eye-witness, 'Richard the Pilgrim'. Carol Sweetenham and Susan Edgington have combined forces to investigate such claims, and their findings are set out in a comprehensive introduction which, firstly, examines the textual history of the poem from its possible oral beginnings through several re-workings to its present form, achieved early in the thirteenth century. A second chapter assesses the *Chanson's* value as a source for the crusade, and a third considers its status as a literary text. A complete prose translation follows, the first in English and based on the definitive edition. The *Chanson* is revealed as a lively narrative, with tales of chivalry, villainy, and even episodes of humour. There are extensive footnotes to the translation, and an appendix provides supplementary material from a different manuscript tradition. There is also a cast list of heroes and villains with biographical information for the 'real' ones and literary analogues for the fictional characters. The *Chanson d'Antioche* can now be read for enjoyment, and for a whole new perspective on crusading in the twelfth and thirteenth centuries.

Crusade and Christendom - Jessalynn Bird
2013-03-26

In 1213, Pope Innocent III issued his letter *Vineam Domini*, thundering against the enemies of Christendom—the "beasts of many kinds that are attempting to destroy the vineyard of the Lord of Sabaoth"—and announcing a General Council of the Latin Church as redress. The Fourth Lateran Council, which convened in 1215, was unprecedented in its scope and impact, and it called for the Fifth Crusade as

what its participants hoped would be the final defense of Christendom. For the first time, a collection of extensively annotated and translated documents illustrates the transformation of the crusade movement. *Crusade and Christendom* explores the way in which the crusade was used to define and extend the intellectual, religious, and political boundaries of Latin Christendom. It also illustrates how the very concept of the crusade was shaped by the urge to define and reform communities of practice and belief within Latin Christendom and by Latin Christendom's relationship with other communities, including dissenting political powers and heretical groups, the Moors in Spain, the Mongols, and eastern Christians. The relationship of the crusade to reform and missionary movements is also explored, as is its impact on individual lives and devotion. The selection of documents and bibliography incorporates and brings to life recent developments in crusade scholarship concerning military logistics and travel in the medieval period, popular and elite participation, the role of women, liturgy and preaching, and the impact of the crusade on western society and its relationship with other cultures and religions. Intended for the undergraduate yet also

invaluable for teachers and scholars, this book illustrates how the crusades became crucial for defining and promoting the very concept and boundaries of Latin Christendom. It provides translations of and commentaries on key original sources and up-to-date bibliographic materials.

The Medieval World - Peter Linehan

2018-02-01

Ranging from Connacht to Constantinople and from Tynemouth to Timbuktu, the forty-four contributors to *The Medieval World* seek to bring the Middle Ages to life, offering definitive appraisals of the distinctive features of the period. This second edition includes six additional chapters, covering the Byzantine empire, illuminated manuscripts, the 'esprit laïque' of the late middle ages, saints and martyrs, the papal chancery and scholastic thought. Chapters are arranged thematically within four parts: 1. Identities, Selves and Others 2. Beliefs, Social Values and Symbolic Order 3. Power and Power Structures 4. Elites, Organisations and Groups *The Medieval World* presents the reader with an authoritative account of original scholarship across the medieval millennium and provides essential reading for all students of the subject.
