The Forty Rules of Love - Elif Shafak 2010-02-18
In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love The *Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one

of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

An Introduction to Modern Literary Arabic - David Cowan 1958

The lessons are clear, in non-technical language, and have generous examples, with plenty of exercises for translation from Arabic to English and from English to Arabic. This is the manual that students interested in Arabic as a living and expanding world language will prefer. It is the first to deal mainly with modern literary Arabic. In Mr Cowan's words: 'The purpose is to explain to the students, in as concise a manner as possible, the grammatical structure of the modern Arabic literary language as it is found today in newspapers, magazines, books, the radio, and public speaking. I have endeavoured to restrict the material to the minimum which may serve as a stepping-stone to a deeper study of Arabic. As the fundamental grammar of written Arabic has hardly changed as an introduction to the classical language also. Having once mastered its contents the student should have a sound grasp of Arabic grammar and can then direct his studies towards modern literature or classical according to his needs and inclinations.

Arab Dress - Yedida Kalfon Stillman 2000

Hilary Putnam has been convinced for some time that the present situation in philosophy calls for revitalization and renewal; in this latest book he shows us what shape he would like that renewal to take. *Words and Life* offers a sweeping account of the sources of several of the central problems of philosophy, past and present, and of why some of those problems are not going to go away. As the titles of the first four parts in the volume--"The Return of Aristotle," "The Legacy of Logical Positivism," "The Inheritance of Pragmatism," and "Essays after Wittgenstein"--suggest, many of the essays are concerned with tracing the recent, and the not so recent, history of these problems. The goal is to bring out what is coercive and arbitrary about some of our present ways of posing the problems and what is of continuing interest in certain past approaches to them. Various supposedly timeless philosophical problems appear, on closer inspection, to change with altered historical circumstances, while there turns out to be much of permanent value in Aristotle's, Peirce's, Dewey's, and Reichenbach's work on some of the problems that continue to exercise us. A unifying theme of the volume as a whole is that reductionism, scientism, and old-style disenchanted naturalism tend to be obstacles to philosophical progress. The titles of the final three parts of the volume--"Truth and Reference," "Mind and Language," and "The Diversity of the Sciences"--indicate that the sweep of the problems considered here comprehends all the fundamental areas of contemporary analytic philosophy. Rich in detail, the book is also grand in scope, allowing us to trace the ongoing intellectual evolution of one of the most significant philosophers of the century.
