In the Gold of Time - Claudie Gallay 2014-12-09

Set between Normandy and Arizona, In the Gold of Time is a seductive tale of silences and dark, half-revealed secrets, and a haunting elegy for innocence lost in a lost world. A young father holidays by the sea near Dieppe with his reproachfully perfect wife and their twin daughters. Returning from the local shop, he meets an eccentric old lady, Alice Berthier, who lives with he mute sister, Clemence. Their mysterious house is full of old photographs and strange objects--sacred ceremonial masks once belonging to the Hopi, a tribe of Native Americans from Arizona. Haunted by memories of a tragic past, Alice takes comfort in her new companion, and he, in turn, is drawn into her mysterious world. As his family recedes into the background, her stirring tales of the Hopi and

the Arizona desert become the only salve to his despondent soul

For Kicks - Dick Francis 1988-09-19

A classic mystery from Dick Francis, the champion of English storytellers. Daniel Roke owns a stud farm in Australia. He's young, smart, hard-working and desperate for some excitement - all of which makes him the ideal candidate for the Earl of October, who has come visiting. The Earl is concerned about a horse-doping scandal that is

destroying English racing. He wants to pay Daniel to come back with him, pose as a highly corruptible stable lad and discover who is behind it. Unfortunately, when Daniel agrees he doesn't realise how close he'll have to get to find the truth. Nor how determined the criminals will be to prevent him living long enough to tell anyone... Praise for Dick Francis: 'As a jockey, Dick Francis was unbeatable when he got into his stride. The same is true of his crime writing' Daily Mirror 'Dick Francis's fiction has a secret ingredient - his inimitable knack of grabbing the reader's attention on page one and holding it tight until the very end' Sunday Telegraph 'The narrative is brisk and gripping and the background researched with care . . . the entire story is a pleasure to relish' Scotsman 'Francis writing at his best' Evening Standard 'A regular winner . . . as smooth, swift and lean as ever' Sunday Express 'A super chiller and killer' New York Times Book Review Dick Francis was one of the most successful post-war National Hunt jockeys. The winner of over 350 races, he was champion jockey in 1953/1954 and rode for HM Queen Elizabeth, the Queen Mother, most famously on Devon Loch in the 1956 Grand National. On his retirement from the saddle, he published his autobiography, *The Sport of Queens*, before going on to write forty-three bestselling novels, a volume of short stories (*Field of 13*), and the biography of Lester Piggott. During his lifetime Dick Francis received many awards, amongst them the prestigious Crime Writers' Association's Cartier Diamond Dagger for his outstanding contribution to the genre, and three 'best novel' Edgar Allan Poe awards from The Mystery Writers of America. In 1996 he was named by them as Grand Master for a lifetime's achievement. In 1998 he was elected a fellow of the Royal Society of Literature, and was awarded a CBE in the Queen's Birthday Honours List of 2000. Dick Francis died in February 2010, at the age of eighty-nine, but he remains one of the greatest thriller writers of all time.

Internal Combustion Engines - Institution of Mechanical Engineers 2014-10-10

This book presents the papers from the Internal Combustion Engines: Performance, fuel economy and emissions held in London, UK. This popular international conference from the Institution of Mechanical Engineers provides a forum for IC engine experts looking closely at developments for personal transport applications, though many of the drivers of change apply to light and heavy duty, on and off highway, transport and other sectors. These are exciting times to be working in the IC engine field. With the move towards downsizing, advances in FIE and alternative fuels, new engine architectures and the introduction of Euro 6 in 2014, there are plenty of challenges. The aim remains to reduce both CO2 emissions and the dependence on oil-derivate fossil fuels whilst meeting the future, more stringent constraints on gaseous and particulate material emissions as set by EU, North American and Japanese regulations. How will technology developments enhance performance and shape the next generation of designs? The book introduces compression and internal combustion engines' applications, followed by chapters on the challenges faced by alternative fuels and fuel delivery. The remaining chapters explore current improvements in combustion, pollution prevention strategies and data comparisons. presents the latest requirements and challenges for personal transport applications gives an insight into the technical advances and research going on in the IC Engines field provides the latest developments in compression and spark ignition engines for light and heavy-duty applications, automotive and other markets

Janey the Vet - Janey Lowes 2020-03-19

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham

and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

Automotive Lubricants Reference Book - Arthur J. Caines 2004

The automotive lubricants arena has undergone significant changes since the first edition of this book was published in 1996. Environmental concerns, particularly regrading improvement of air quality have been important in recent years, Reduced emissions are directly related to changes in lubricant specifications and quality, and the second edition of the Automotive Lubricants Reference Book reflects the urgency of such matters by including updated and expanded detail. This second edition also considers the recent phenomenon of increased consolidation within

the oil and petroleum additive arenas, which has resulted in fewer people for research, development, and implementation, along with fewer competing companies. After reviewing the first edition the authors have fully reviewed and updated the information to fit in with the changes in technology and markets. Chapters include, Introduction and Fundamentals Constituents of Modern Lubricants Crankcase Oil Testing Crankcase Oil Quality Levels and Formulations Practical Experiences with Lubricant Problems Performance Levels, Classification, Specification, and Approval of Engine Lubricants. Other Lubricants for Road Vehicles Other Specialized Oils of Interest Blending, Storage, Purchase, and Use Safety Health, and the Environment The Future.

Mordin on Time - Nick Mordin 2003-02

In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.

By combining stories of real-life situations with interviews and statistics, CrashLaneNews.com hopes to appeal to travelers who are looking for

more than just dry news, but rather an all-inclusive story-based format that will appeal to their logical sides as well as their curiosity about real-life experiences. Information from the National Highway Traffic Safety Administration, the Department of Transportation and many more is included alongside accident, violation and disaster rates. Also included are interviews with the CTIA-The Wireless Association public relations office, NASA's Rani Gran, The National Weather Service, True Mileage's CEO Ryan Morrison, National Weather Service Interviews with Meteorologist Glen Field in Taunton, Massachusetts; Meteorologist Larry Ruthi in Dodge City, Kansas; and with additional meteorologists in Honolulu, Hawaii; North Carolina; Peach Tree City, Georgia; and Slidell/New Orleans, Louisiana; AAA Auto Club's Public Relations Officer, Cynthia Harris, of AAA's Northern California, Nevada, and Utah regional office in San Francisco, California; National Insurance Crime Bureau's Public Affairs Director Frank Scafidi and more. Travel advice for travelers is included from the Department of the State and the FCC. An excerpt from "Crash Lane News": "In the years after 9/11 there was a big issue and discussion about how there is a lack of transparency in the United States about information relating to Homeland Security and disasters like Hurricane Katrina. The lack of transparency in the military, and what later happened to many of those that volunteered to serve the United States is horrific. But with all the casualties, injuries, and failures, change to correct these errors can be made." CrashLaneNews.com's vision is to help travelers develop comprehensive plans for their own safety. Budget Policy and Fiscal Risk - Dennis S. Ippolito 2014-07-22

Critics often charge that the major revision of U.S. military strategy which took place after the collapse of the Soviet Union was budget-driven rather than strategy-driven. Partially in response to this, the current strategic review, led by Secretary of Defense Rumsfeld, is intended to be "strategy-driven." Even so, the defense budget remains one of the central shaping features of U.S. national security and national military strategy. To understand what is possible in terms of defense transformation, one must first have a firm grasp of the budgetary context

of strategic decisions. In the monograph that follows, Dr. Dennis Ippolito, one of the leading experts on the American defense budget, assesses this context. He shows that defense will continue to compete with domestic programs for that portion of the budget allocated to discretionary spending, and argues that this is a competition in which defense needs have not fared especially well in the past and may not in the future.

By the Sea - Edmund Sandars 1860

Orange Soap - Gunter Pauli 2018-09

Slave Stealers - Timothy Ballard 2018-09-04

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet

Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.
