Emergent Strategy - adrienne
maree brown 2017-03-20
In the tradition of Octavia
Butler, here is radical self-help,
society-help, and planet-help to
shape the futures we want.
Change is constant. The world,
our bodies, and our minds are

Downloaded from
test.unicaribe.edu.do on
by guest

in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

[The Mobilities of Ships](#) - Anyaa Anim-Addo 2017-10-02

We live in a world that is ever on the move, as is increasingly recognised within research on mobilities. Yet studies of mobility have failed to 'go to sea' with the same enthusiasm as mobilities ashore. When we consider mobility, we most

often examine those movements that evidently form part of our everyday lives. We forget to look outwards to the sea. Yet ships have played - and continue to play - a significant role in shaping socio-cultural, political and economic life. This book turns our attention to the manifold mobilities that occur at sea through an exploration of the mobilities of ships themselves as well as the movements of objects, subjects and ideas that are mobilised by ships. The Mobilities of Ships brings together seven chapters that tack through unexplored waters and move between diverse case studies, including pirate ships, naval vessels and luxury yachts. In so doing, The Mobilities of Ships offers a rich insight into the world of shipping mobilities past and present. This book was published as a special issue of Mobilities.

With Winston Churchill at the Front - Andrew Dewar Gibb 2016-06-30

Following his resignation from the Government after the

*Downloaded from
test.unicaribe.edu.do on
by guest*

disastrous Gallipoli campaign, Winston Churchills political career stalled. Never one to give in, Churchill was determined to continue fighting the enemy. He was already a Major in the Territorial Reserve and he was offered promotion to Lieutenant Colonel and with it command of a battalion on the Western Front. On 5 January 1916, Churchill took up his new post with the 6th (Service) Battalion, Royal Scots Fusiliers. The battalions adjutant was Captain Alexander Dewar Gibb who formed a close relationship with Churchill that lasted far beyond their few weeks together in the war. Dewar Gibb subsequently wrote an account of his and Churchills time together in the trenches. Packed with amusing anecdotes and fascinating detail, Gibbs story shows an entirely different side to Churchills character from the forceful public figure normally presented to the world. Churchill proved to be a caring and compassionate commander

and utterly fearless. Despised on his arrival, by the time he departed he was adored by his men. Supplemented with many of Churchills letters, the observations of other officers and additional narrative this is the most unusual and absorbing account of this part of Churchill's life that has ever been told.

[Globalography: Our Interconnected World revealed in 50 Maps](#) - Chris Fitch
2018-11-01

50 stunning maps reveal our globalized world like never before. Explore how cities are expanding beyond the reach of their nations, uncover the ways bananas, cobalt and water bottles link the most unlikely of places, and discover how modern phenomena such as messenger apps and sharing platforms are changing not just our interactions, but how we interconnect. Globalography uncovers the myriad ways we can now connect with one another and in doing so, showcases the radical way globalization is transforming our world.

Early Modern Ethnic and Religious Communities in Exile

- Yosef Kaplan 2017-11-06

In the Early Modern period, the religious refugee became a constant presence in the European landscape, a presence which was felt, in the wake of processes of globalization, on other continents as well. During the religious wars, which raged in Europe at the time of the Reformation, and as a result of the persecution of religious minorities, hundreds of thousands of men and women were forced to go into exile and to restore their lives in new settings. In this collection of articles, an international group of historians focus on several of the significant groups of minorities who were driven into exile from the sixteenth to the eighteenth centuries. The contributions here discuss a broad range of topics, including the ways in which these communities of belief retained their identity in foreign climes, the religious meaning they accorded to the experience of exile, and the

connection between ethnic attachment and religious belief, among others.

Seeing Like a State - James C. Scott 2020-03-17

“One of the most profound and illuminating studies of this century to have been published in recent decades.”—John Gray, New York Times Book Review Hailed as “a magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”— Charles Tilly, Columbia University

The Foreign Commerce and Navigation of the United States for the Year Ending ... - 1925

The Culture Map - Erin Meyer 2014-05-27

An international business expert helps you understand and navigate cultural differences in this insightful and practical guide, perfect for both your work and personal life. Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact international business, and combines a smart analytical framework with practical, actionable advice.

Crossing Borders: Boundaries and Margins in Medieval and Early Modern Britain - 2018-04-03

The twelve essays in *Crossing Borders: Boundaries and Margins in Medieval and Early Modern Britain* examine marches and margins as jurisdictional, legal, and social expressions of power, building upon the scholarship of Professor Cynthia J. Neville.

Scottish Romanticism and Collective Memory in the

British Atlantic - McNeil

Kenneth McNeil 2020-09-04

Charts Scottish Romanticism's significant contribution to the making of collective memory in the transatlantic world Offers an in-depth examination of Scottish Romantic literary ideas on memory and their influence among various cultures in the British Atlantic, broken down into distinct writing modes (memorials, travel memoir, slave narrative, colonial policy paper, emigrant fiction) and contexts (pre- and post-Revolution America, French-Canadian cultural nationalism, the slavery

*Downloaded from
test.unicaribe.edu.do on
by guest*

debate, immigration and colonial settlement). Looks at familiar Scottish writers (Walter Scott, John Galt) in new ways, while introducing less familiar ones (Anne Grant, Thomas Pringle). Brings Scottish Romantic literary studies into new engagements with other fields (such as transatlantic and memory studies). Opens up new dialogues between Scottish literature and culture and other literatures and cultures (for example, French-Canadian, Black Diaspora, Indigenous). Scots, who were at the vanguard of British colonial expansion in North America in the Romantic period, believed that their own nation had undergone an unprecedented transformation in only a short span of time. Scottish writers became preoccupied with collective memory, its powerful role in shaping group identity as well as its delicate fragility. McNeil reveals why we must add collective memory to the list of significant contributions Scots made to a culture of modernity.

Scotland - Christopher Fleet 2016

As miniature worlds, beautiful locations and homes to communities seemingly distant from the stresses of modern life, Scotland's many islands have an extraordinary fascination on countless people, not least on the hundreds of thousands of visitors who visit them each year. Maps too fascinate, as objects of visual delight and historical importance, and as a means to represent and understand landscapes. This stimulating and informative book reproduces some of the most beautiful and historically significant maps from the National Library of Scotland's magnificent collection in order to explore the many dimensions of island life and how this has changed over time. Arranged thematically and covering topics such as population, place-names, defence, civic improvement, natural resources, navigation, and leisure and tourism, *Scotland: Mapping the Islands* presents the rich and diverse

story of Scottish islands from the earliest maps to the most up-to-date techniques of digital mapping in a unique and imaginative way.

Fen and Sea - I.G. Simmons
2022-01-31

Reknown environmental archaeologist Ian Simmons synthesises detailed research into the landscape history of the coastal area of Lincolnshire between Boston and Skegness and its hinterland of Tofts, Low Grounds and Fen as far as the Wolds. With many excellent illustrations Simmons chronicles the ways in which this low coast, backed by a wet fen, has been managed to display a set of landscapes which have significant differences that contradict the common terminology of uniformity, calling the area 'flat' or everywhere from Cleethorpes to Kings Lynn as 'the fens'. These usually labelled 'flat' areas of East Lincolnshire between Mablethorpe and Boston are in fact a mosaic of subtly different landscapes. They have become that way largely due to the

human influences derived from agriculture and industry.

Between the beginning of Norman rule and the advent of pumped drainage, a number of significant changes took place. Foremost was the reclamation of land from the sea, which took place in both medieval times and the early modern decades. Part of the sequence along the coast of The Wash was due to land creation from the wastes of the salt industry. Next in importance was the management of the East Fen, both for its resources (mostly of a biological nature) and to keep it from flooding the surrounding lands and settlements. All these changes required a knowledge of water management that depended upon gravity until the coming of the drainage mill towards 1700. This area of Lincolnshire has been largely ignored by recent practitioners of historical geography, landscape history and archaeology alike, so one aim has been to accumulate as much data as possible from a variety of sources: documents,

digs, aerial imagery, maps and fieldwork dominate. The project has accumulated information from Roman times until the beginnings of fossil-fuel powered drainage. This book would be first on this particular region and the first of its kind in trying to bring together both scientific data and documentary evidence including medieval and early modern documents from the National Archive, Lincolnshire Archives, Bethlem Hospital and Magdalen College Oxford, to explore the little-known archives of regional interest, such as that of the Bethlem Royal Hospital.

[Street Literature of the Long Nineteenth Century](#) - David Atkinson 2017-08-21

For centuries, street literature was the main cheap reading material of the working classes: broadsides, chapbooks, songsters, prints, engravings, and other forms of print produced specifically to suit their taste and cheap enough for even the poor to buy.

Starting in the sixteenth

Downloaded from
test.unicaribe.edu.do on
by guest

century, but at its chaotic and flamboyant peak in the nineteenth, street literature was on sale everywhere - in urban streets and alleyways, at country fairs and markets, at major sporting events and holiday gatherings, and under the gallows at public executions. For this very reason, it was often despised and denigrated by the educated classes, but remained enduringly popular with the ordinary people. Anything and everything was grist to the printers' mill, if it would sell. A penny could buy you a celebrity scandal, a report of a gruesome murder, the last dying speech of a condemned criminal, wonder tales, riddles and conundrums, a moral tale of religious danger and redemption, a comic tale of drunken husbands and shrewish wives, a temperance tract or an ode to beer, a satire on dandies, an alphabet or "reed-a-ma-daisy" (reading made easy) to teach your children, an illustrated chapbook of nursery rhymes, or the adventures of Robin

Hood and Jack the Giant Killer. Street literature long held its own by catering directly for the ordinary people, at a price they could afford, but, by the end of the Victorian era, it was in terminal decline and was rapidly being replaced by a host of new printed materials in the shape of cheap newspapers and magazines, penny dreadful novels, music hall songbooks, and so on, all aimed squarely at the burgeoning mass market. Fascinating today for the unique light it shines on the lives of the ordinary people of the age, street literature has long been neglected as a historical resource, and this collection of essays is the first general book on the trade for over forty years.

the Year for the Evening Standard and the Observer A black porter publicly whips a white Englishman in the hall of a Gloucestershire manor house. A Moroccan woman is baptised in a London church. Henry VIII dispatches a Mauritanian diver to salvage lost treasures from the Mary Rose. From long-forgotten records emerge the remarkable stories of Africans who lived free in Tudor England... They were present at some of the defining moments of the age. They were christened, married and buried by the Church. They were paid wages like any other Tudors. The untold stories of the Black Tudors, dazzlingly brought to life by Kaufmann, will transform how we see this most intriguing period of history.

The Debatable Land: The Lost World Between Scotland and England -

Graham Robb 2018-06-12
Best-selling author Graham Robb finds that the 2,000-year-old map of Ptolemy unlocks a central mystery of British history. Two years ago,

Graham Robb moved to a lonely house on the very edge of England, near the banks of a river that once marked the southern boundary of the legendary Debatable Land. The oldest detectable territorial division in Great Britain, the Debatable Land served as a buffer between Scotland and England. It was once the bloodiest region in the country, fought over by Henry VIII, Elizabeth I, and James V. After most of its population was slaughtered or deported, it became the last part of Great Britain to be brought under the control of the state. Today, it has vanished from the map and its boundaries are matters of myth and generational memories. Under the spell of a powerful curiosity, Robb began a journey—on foot, by bicycle, and into the past—that would uncover lost towns and roads, and unlock more than one discovery of major historical significance. These personal and scholarly adventures reveal a tale that spans Roman, Medieval, and present-day Britain. Rich in detail and epic

*Downloaded from
test.unicaribe.edu.do on
by guest*

in scope, *The Debatable Land* takes us from a time when neither England nor Scotland existed to the present day, when contemporary nationalism and political turmoil threaten to unsettle the cross-border community once more. With his customary charm, wit, and literary grace, Graham Robb proves the Debatable Land to be a crucial, missing piece in the puzzle of British history.

Bibliographical Contributions - United States. Department of Agriculture. Library 1906

Exploring the History of Southeast Asian Astronomy - Wayne Orchiston 2021-08-01
This edited volume contains 24 different research papers by members of the History and Heritage Working Group of the Southeast Asian Astronomy Network. The chapters were prepared by astronomers from Australia, France, Germany, India, Indonesia, Japan, Malaysia, the Philippines, Scotland, Sweden, Thailand and Vietnam. They represent the latest understanding of

cultural and scientific interchange in the region over time, from ethnoastronomy to archaeoastronomy and more. Gathering together researchers from various locales, this volume enabled new connections to be made in service of building a more holistic vision of astronomical history in Southeast Asia, which boasts a proud and deep tradition.

The Collection All Around -

Jeffrey T. Davis 2017-05-08

Public libraries' mission, skills, and position in their communities make them ideal facilitators of public access to local resources. In other words, the collection is all around, and libraries can help citizens discover historical, cultural, and natural riches that they might otherwise overlook.

The Castles of Scotland -

Martin Coventry 2000

This new edition has been called "the bible of Scottish castles." It is the only book to cover all of them -- a

Downloaded from
test.unicaribe.edu.do on
by guest

comprehensive reference and gazetteer to more than 2,700 castles and fortified sites. Heavily illustrated throughout with more than 300 photographs and drawings, this new edition has been completely revised, expanded, and updated, with information on 600 new sites. This is an easy-to-use alphabetical guide and gazetteer, with comprehensive listings, index of sites reputed to be haunted, a family names index, and twenty pages of maps locating every castle in Scotland. No castle enthusiast should be without this book. The culmination of ten years' research, *The Castles of Scotland* offers comprehensive information on the fortified buildings of Scotland, including histories, ownership, locations, facilities, and visitor access. The 2,700 sites discussed include the largest strongholds to the smallest ruins to mere sites. The history of a castle is as important as the physical remains. Some strongholds have a long and fascinating past yet no more than a vestige

of their former strength survives, such as the castles at Inverness, Roxburgh, or Dunbar. Few castles can match the stark and romantic beauty of Eilean Donan Castle, or the majestic and imposing grandeur of Ballindalloch Castle or Crathes Castle, the dangerous cliffside setting of Dunnottar Castle, or the picturesque Kilchurn Castle. New for this edition: -- 670 new sites added -- historic houses and mansions open to the public now included -- improved and increased number of illustrations -- updated, corrected and more-detailed entries -- access details for the year 2001 and full list of facilities now included -- 16 pages of full color photographs added to the cloth edition

Hebrides: The Western Isles of Scotland, from Lewis to Barra, by experienced writer and journalist Mark Rowe is the only full-size guide to focus solely on the islands of Lewis, Harris, St Kilda, North Uist, Benbecula, South Uist, Eriskay, Barra and Vatersay. Masses of background information is included, from geography and geology to art and architecture, with significant coverage of wildlife, too, as well as all the practical details you could need: when to visit, suggested itineraries, public holidays and festivals, local culture, plus accommodation and where to eat and drink. Walkers, bird-watchers, wildlife photographers, beach lovers and genealogists are all catered for, and this is an ideal guide for those who travel simply with curious minds to discover far-flung places of great cultural, historical and wildlife interest. The Outer Hebrides is an archipelago of 15 inhabited islands and more than 50 others that are free of human footprint. Huge variations in landscape are

found across the islands, from Lewisian gneiss, which dates back almost three billion years, to rugged Harris with its magnificent sands running down its western flanks and the windswept, undulating flatness and jagged sea lochs of the Uists. This is a land where Gaelic is increasingly spoken and ancient monuments abound, where stunning seabird colonies and birds of prey can be watched, and where the grassy coastal zones known as the machair are transformed into glorious carpets of wildflowers in late spring and summer. Whether visiting the Standing Stones of Callanish, the Uig peninsula, Barra's Castle Bay, or historic St Kilda, or if you just want to experience the romance of the Sound of Harris, one of the most beautiful ferry journeys in the world, Bradt's Outer Hebrides: The Western Isles of Scotland, from Lewis to Barra has all the information you need.

first presented at the 5th International Symposium of the ICA Commission on the History of Cartography, which took place at the University of Ghent, Belgium on 2-5 December 2014. The overall conference theme was 'Cartography in Times of War and Peace', but preference was given to papers dealing with the military cartography of the First World War (1914-1918). The papers are classified by period and regional sub-theme, i.e. Military Cartography from the 18th to the 20th century; WW I Cartography in Belgium, Central Europe, etc.

The Foreign Commerce and Navigation of the United States for the Year Ending ... - United States. Bureau of the Census 1925

Waders of Europe, Asia and North America - Don W. Taylor 2020-06-25

This new field guide offers a complete identification reference to all of the sandpipers, plovers, stints and other waders found in Europe, Asia and North America. The

superb plates show birds at rest and in flight, in every plumage variant likely to be encountered in the region. Species have been grouped, especially on the flight plates, so that similar species are shown close to each other. Facing text summarises key identification pointers to complete a quick-reference, field-friendly guide to this difficult and challenging group.

Bookseller - 1915

Criticizing Photographs - Terry Barrett 2020-11-30
Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers, critics, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting answers to questions such as: What are

*Downloaded from
test.unicaribe.edu.do on
by guest*

photographs? Should they be called art? Are they ethical? What are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations. It looks at how the worth of photographs is judged aesthetically and socially, offering samples and

practical considerations for both studio critiques for artists and professional criticism for public audiences. This book is a clear and accessible guide for students of art history, photography and criticism, as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live.
