Model Rules of Professional Conduct - American

Bar Association. House of Delegates 2007
The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Waiting for Elijah - Gari-Anne Patzwald 2002

"The church originated in the itinerant ministry of a Civil War veteran named L. T. Nichols, whose controversial preaching led to his being shot and wounded. Originally known as the Christian Brethren, Nichols and his followers relocated from Oregon to the Midwest in 1883 and some years later embarked on an evangelistic ministry that entailed traveling up and down the Mississippi River system on a large steamboat. In 1904, the group moved to its present home of Rochester, New York, from which its missionaries traveled throughout the United States and Canada. They took the name "Megiddo" from a strategically located city in ancient Israel, which to them signified a place where soldiers of God gathered to renew their strength and courage."--BOOK JACKET.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human

life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Strengthening Forensic Science in the United States - National Research Council
2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Global Trends 2030 - Office of the Director of National Intelligence Council 2017-03-11

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations.

Free Roll - Brandt Tobler 2017-05-22
 Have you ever wondered: What it's like to daily

bet hundreds of thousands of dollars working for
 some of the largest professional gamblers in Las
 Vegas? ... How to spend a summer house sitting
 one of the biggest stars in the world's 11,000
 square-foot mansion - without an invitation from
 it's celebrity owner ... Whether the life of crime -
 specifically, running a shoplifting ring in a
 middle American mall - pays? ... What causes a
 son to finally say enough is enough ... and decide
 "Today is the day I am going to kill my dad."
 Comedian Brandt Tobler has the answers in this
 funny, touching and sometimes downright
 unbelievable memoir of a small town Wyoming-
 kid turned "mall-fia" don, turned nationally
 touring comic. Brand tells his life story with
 candor, detailing the many pit stops, wrong
 turns, crazy connections and lucky breaks he
 experienced along the way to his comedy career,
 all while trying to balance a toxic relationship
 with his unreliable jailbird dad. In these pages
 Brandt will make you laugh (he better - it's his
 job!) and believe as he does that, when it comes
 to defining family, blood isn't always thicker
 than water. -- back cover.
